

Disseminating Data to Morningstar (CA) – Pooled Funds

This content is designed for data providers, fund managers that are, or intending to, disseminate fund data to Morningstar.

Delivering data to Morningstar is free of charge; however, we have certain standards and technical requirements in place, to process your data successfully and display accordingly within our products.

We understand the importance of providing accurate, timely and complete fund data to financial market participants and clients.

If you want to know how to disseminate data to Morningstar or have any data collection related questions, please click the 'Contact Us' icon below to find the contact information.
