

Morningstar Multi Asset Fund Range

The Morningstar Multi Asset Fund Range provides investors with a high-quality, diversified, cost-effective and robust investment solution that leverages Morningstar’s global expertise. Insights from a global Research and Investment Team of over 400 experts enable us to build robust portfolios focused on achieving your clients’ goals.

Why invest in the funds?

- A focus on achieving your financial goals**
 Our goal is to help investors achieve their financial goals by producing more consistent returns with less risk. No one likes surprises when it comes to investing, so more consistent returns make it easier to stay invested over the longer term.
- Regular updates**
 We provide advisers regular updates on what’s happening in investment markets, how portfolios are performing and how our research translates into portfolio positioning. This content comes in multiple formats for advisers and their clients.
- Access to a truly diversified portfolio**
 Diversification is key to achieving your financial goals. It means having a portfolio that’s robust enough to meet your objectives whatever the investment environment.
- Good value**
 We are committed to keeping fees low to help ensure the investor takes home their share of the profits.
- Tax efficiency**
 As you guide your clients through their financial journey, staying informed and proactive in considering tax implications is key. By incorporating multi asset funds into your overall portfolio strategy, you can offer your clients a customised and accessible investment experience while maximizing tax benefits.
- Invest in the best opportunities at any given time**
 A large global team research over 350 different equity, bond and currency markets. We seek to invest in assets that are cheap or undervalued and to avoid the expensive or overvalued ones. This is one way we achieve more consistent and predictable returns.

How do our Multi Asset Funds Work?

In-Depth Valuation Analysis Value

Our valuation-driven approach focuses on one central idea: We seek to find value in fundamentally strong but underpriced investments. Valuation is one of the key factors guiding the way we construct multi asset funds and helping us manage risk.

Portfolio Construction

This best thinking gets built into every fund we manage through an iterative portfolio construction process. Our evaluation of risk and reward continues as we size positions and seek true, fundamental diversification in each portfolio or fund.

Develop Asset Class Views

The core of our philosophy is the belief that asset class returns are intrinsically linked to the cash flows they supply to investors.

In-depth, fundamental asset class reviews are integral to developing our conviction in different investment opportunities.

Investment Selection

We like to think the result is the best of all possible worlds—bringing in managers we consider best in class, while lowering fees with passive investment.

These funds are designed for UK investors wanting:

To invest for the medium to long term

The funds are designed to be held for at least 3 years rising to 7 at the higher investment risk end of the range.

Sound risk management

The funds are built for the investor's risk tolerance. We define risk as a permanent loss of capital that can't be recovered in the investor's timeframe.

To invest for growth

The funds are for investors seeking capital growth and who can accept some investment risk.

Cost efficiency

We are committed to keeping fees low to help ensure the investor takes home their share of the profits.

What you need to consider

It is important to note that investments in securities involve risk and will not always be profitable. Morningstar Investment Management Europe Limited does not guarantee that the results of its investment decisions or the objectives of the funds will be achieved. Morningstar Investment Management Europe Limited does not guarantee that negative returns can or will be avoided in any of its funds. An investment made in a security may differ substantially from its historical performance and as a result, funds may incur a loss. Past performance is not a guide to future returns. The value of investments may go down as well as up and investors may not get back the amount invested. Morningstar Investment Management Europe Ltd does not provide tax advice and independent professional advice should be sought.
