International GBP - Cautious Growth

Factsheet 29/02/2024

Investment Objective

The Cautious Growth Portfolio aims to provide some capital growth whilst focusing on capital preservation over the short to medium term. The portfolio is actively managed and primarily invests in equities and fixed income assets, with a notable bias towards more defensive assets. The portfolio primarily invests in passive funds, but it will also have exposure to active funds if the managers believe value can be added. Positions in alternative asset classes may be included for diversification purposes. We set a maximum equity weighting of 30% for this risk profile.

Returns Disclosure

The returns shown may not be the same as the returns of an investor's actual account and this due to various factors including the investment date by the investor and differences across platforms. The returns are calculated through Morningstar Direct, are provided for illustrative purposes only and should not be viewed as the performance of an actual account. The trailing returns shown are cumulative and year-on-year returns show complete 12-month periods. All performance is shown net of the holdings' management fees and expenses based on the cheapest share class available; however does not include the 0.25% per annum charged by Morningstar Investment Management Europe Ltd, the advisor fees or the Platform fees, therefore the actual performance experienced will be lower once these charges have been taken into account.

A fund may not be available on all platforms and hence it is not always possible for us to replicate the model portfolios through all platforms. In this case, different funds will be used and weightings may also differ for portfolio construction reasons.

Risk Warnings

Unless stated otherwise, all data and information is presented at 29/02/2024. Past performance is not a guide to future returns. The value of investments may go down as well as up and investors may not get back the amount invested. The portfolio shown has similar investment objectives and strategies as the portfolio recommended to individual clients by their financial adviser; however, may not contain the same securities that are currently underlying the portfolio provided to individual clients. Specific securities mentioned should not be viewed as a recommendation to buy or sell such securities. Due to platform requirements, cash allocations may differ per platform.

There is no guarantee that a diversified portfolio will enhance overall returns or will outperform a non-diversified portfolio. Neither diversification nor asset allocation ensure a profit or guarantee against loss. It is important to note that investments in mutual funds involve risk, including as a result of market and general economic conditions, and will not always be profitable.

Morningstar Equity Style Box

The Morningstar Style Box is a nine-square grid that illustrates the investment style of a security. Size (large, mid, or small) is displayed along the vertical axis and style is displayed along the horizontal axis. The "value" and "growth" investment styles are common to both stocks and funds. For stocks, the central column of the Style Box represents the "core" style. Few or no funds contain only stocks with extreme value-growth orientations, and both value and growth managers often hold core stocks for diversification or other reasons. Therefore, for funds, the central column represents the "blend" style (a mixture of growth and value stocks or mostly core stocks).

Morningstar Investment Management Europe Ltd

Morningstar Managed Portfolios are offered by Morningstar Investment Management Europe Ltd, which is authorised and regulated by the UK Financial Conduct Authority to provide services to Professional clients and is the entity providing the discretionary management services. These portfolios can only be made available through the use of an Investment Adviser appropriately authorised and regulated by a competent authority.

The Morningstar name and logo are registered trademarks of Morningstar, Inc, the parent company of Morningstar Investment Management Europe Ltd. This document includes proprietary materials of Morningstar. Reproduction, transcription, or other use, by any means, in whole or in part, without the prior written consent of Morningstar is prohibited. The information, data, and analyses presented herein do not constitute investment advice; are provided as of the date written and are not warranted to be correct, complete or accurate. The statistics noted are derived from the holdings and statistics of the funds underlying this Morningstar Managed Portfolio. The data used to formulate the portfolio statistics is from information contained in Morningstar Inc's database on the underlying funds as of the month end date listed; therefore the information may not be reflective of the portfolio's current holdings and/or statistics.

Look-through charts are calculated by aggregating the underlying fund holdings. For data integrity purposes, any underlying holdings that have not been reported in the past 184 days are excluded from the look-through calculations. Therefore, actual exposures may differ from what is presented.

The allocations shown within this report are subject to change without notice. A Portfolio Rationale document will be issued to the adviser in any instance where a change has been made to the portfolio. Tax treatment depends on individual circumstances and subject to change. Morningstar Investment Management Europe Ltd does not provide tax advice and independent professional advice should be sought.

This document includes proprietary materials of Morningstar. Reproduction, transcription, or other use, by any means, in whole or in part, without the prior written consent of Morningstar is prohibited. The information, data, and analyses presented herein do not constitute investment advice; are provided as of the date written and are not warranted to be correct, complete or accurate. The statistics noted are derived from the holdings and statistics of the funds underlying this Morningstar Managed Portfolio. The data used to formulate the portfolio statistics is from information contained in Morningstar Inc's database on the underlying funds as of the month end date listed; therefore the information may not be reflective of the portfolio's current holdings and/or statistics.

Look-through charts are calculated by aggregating the underlying fund holdings. For data integrity purposes, any underlying holdings that have not been reported in the past 184 days are excluded from the look-through calculations. Therefore, actual exposures may differ from what is presented.

The allocations shown within this report are subject to change without notice. A Portfolio Rationale document will be issued to the adviser in any instance where a change has been made to the portfolio. Tax treatment depends on individual circumstances and subject to change. Morningstar Investment Management Europe Ltd does not provide tax advice and independent professional advice should be sought.

International GBP - Adventurous Growth

Factsheet 29/02/2024

Investment Objective

The Adventurous Growth Portfolio aims to provide capital growth over the long term. The portfolio is actively managed and invests predominantly in equities to a maximum of 100%. The portfolio primarily invests in passive funds, but it will also have exposure to active funds if the managers believe value can be added. Positions in fixed income, property and alternative asset classes may also be included.

Returns Disclosure

The returns shown may not be the same as the returns of an investor's actual account and this due to various factors including the investment date by the investor and differences across platforms. The returns are calculated through Morningstar Direct, are provided for illustrative purposes only and should not be viewed as the performance of an actual account. The trailing returns shown are cumulative and year-on-year returns show complete 12-month periods. All performance is shown net of the holdings' management fees and expenses based on the cheapest share class available; however does not include the 0.25% per annum charged by Morningstar Investment Management Europe Ltd, the advisor fees or the Platform fees, therefore the actual performance experienced will be lower once these charges have been taken into account.

A fund may not be available on all platforms and hence it is not always possible for us to replicate the model portfolios through all platforms. In this case, different funds will be used and weightings may also differ for portfolio construction reasons.

Risk Warnings

Unless stated otherwise, all data and information is presented at 29/02/2024. Past performance is not a guide to future returns. The value of investments may go down as well as up and investors may not get back the amount invested. The portfolio shown has similar investment objectives and strategies as the portfolio recommended to individual clients by their financial adviser; however, may not contain the same securities that are currently underlying the portfolio provided to individual clients. Specific securities mentioned should not be viewed as a recommendation to buy or sell such securities. Due to platform requirements, cash allocations may differ per platform.

There is no guarantee that a diversified portfolio will enhance overall returns or will outperform a non-diversified portfolio. Neither diversification nor asset allocation ensure a profit or guarantee against loss. It is important to note that investments in mutual funds involve risk, including as a result of market and general economic conditions, and will not always be profitable.

Morningstar Equity Style Box

The Morningstar Style Box is a nine-square grid that illustrates the investment style of a security. Size (large, mid, or small) is displayed along the vertical axis and style is displayed along the horizontal axis. The "value" and "growth" investment styles are common to both stocks and funds. For stocks, the central column of the Style Box represents the "core" style. Few or no funds contain only stocks with extreme value-growth orientations, and both value and growth managers often hold core stocks for diversification or other reasons. Therefore, for funds, the central column represents the "blend" style (a mixture of growth and value stocks or mostly core stocks).

Morningstar Investment Management Europe Ltd

Morningstar Managed Portfolios are offered by Morningstar Investment Management Europe Ltd, which is authorised and regulated by the UK Financial Conduct Authority to provide services to Professional clients and is the entity providing the discretionary management services. These portfolios can only be made available through the use of an Investment Adviser appropriately authorised and regulated by a competent authority.
