DO SEAFOOD **FEARLESSLY™**

WE GUARANTEE QUALITY

— Other seafood companies may say they lead in quality but, at High Liner, we walk the walk. Along with delivering consistent supply, we also run our products through the most rigorous process in the industry, so that when you open a box of High Liner, Superior Quality Seafood™ is guaranteed.

OUR MISSION

The vast majority of High Liner Foodservice's seafood is caught in the wild. Sustainability for wild-caught seafood means it must be legally caught, secure from poaching and protected from overfishing. Further, the fishing practices need to minimize damage to the habitat and non-target species.

OUR GOAL

We source seafood from around the world. No matter where we source, our requirements are the same: suppliers must strive to catch or farm seafood responsibly, protect against overfishing and limit impacts on the natural environment. They are also expected to treat their employees well - in accordance with human rights and human dignity - and uphold high worker safety and social standards.

SUSTAINABILITY IS NOT AN OPTION. IT'S THE ANSWER.

High Liner is focused on providing exceptional seafood for generations to come, so we will never put species or environments at risk for short-term gain.
