8x8

8x8 Express
Phone System for Small Business

Cloud-based communications

Cloud-based business phone systems use the internet to make voice calls, send instant messages, and host audio or video conferences from any computer or smartphone.

If you like saving time and money, sounding professional, and connecting with customers, there's a good chance that a cloud phone system is a great fit for you and your business.

What is 8x8 Express?

8x8 Express is a highly secure, easy to use cloud phone system. It's a great fit for any small business or start-up and includes business communication features such as auto-attendant, call handling, voicemail, and more, for a low monthly fee.

It's easy to set up and there's no hardware to install or maintain. All you need to get started is a good internet connection. 8x8 Express works with any IP phone, computer, or smartphone connected over broadband, mobile, or Wi-Fi.

Manage your users from a PC or smartphone as your business grows and communication needs change.

Benefits:

Save time and money

- 8x8 Express doesn't require a large investment, is easy to set up and use. No installation or engineer visits needed.

Connect instantly

- Use our desktop or mobile apps to make calls, hold meetings or send messages with minimal fuss.

Make changes fast

- A simple online portal lets you add users, buy phones, or assign numbers.

Become more efficient

- With an all-in-one system you spend more time serving customers, not managing communications.

8x8 Express helps you serve customers better

8x8 Express gives your business more ways to connect with customers without the costs, maintenance, and location headaches of managing a traditional phone system. It includes the right blend of features and functionality that small businesses need to outsmart larger rivals, from virtually anywhere. Moving your calls and phone numbers to 8x8 Express is simple and it's ready to use in minutes.
