# Wingstop® Checklist: Top 5 Questions to Evaluate Your Business Phone System

**Answering these questions will help you evaluate your communications solution.**

- Have you experienced dropped calls or garbled audio on your current phone system?

- Do you have a business phone mobile app so you can answer store calls when you're away?

- Are your monthly phone costs unpredictable…and expensive? When was the last time you checked?

- Do you spend a lot of time administering and maintaining your phone system and related communications applications—more than you can quantify? Do you need to contact an IT person to help?

- Are you and your store managers unable to measure performance using metrics like how long customers are kept on hold or how often calls go unanswered?

**If you answered yes to any of these questions, you should consider switching your communications to 8x8.**

**8x8 provides:**

Guaranteed call quality and reliability

Special Wingstop pricing starting at $39 per location plus phones, taxes and fees

Mobile app, desktop app, or desk phones

Instant, understandable analytics

No IT assistance required to make changes

# Get a flavor of 8x8 from our customers.

"Our 8x8 phone system is kind of invisible because it just works. It's amazing how few problems we have and how few devices have failed. 8x8 is exceedingly reliable—no care or feeding required!"

— **Phil Gray,** Owner and operator of 24 McDonald's locations

"With 8x8, we're incredibly flexible now… In a matter of months, the investment paid for itself."

— **Marc Ballbach,** Vice President of Information Technology, Romano's Macaroni Grill

"Before 8x8, it would have taken us HOURS to make the configuration changes necessary to play a different outgoing message. And most likely we would have had to pay a technician to come in and help us do it. 8x8 gives us back control of our phone system, so we can make changes on the fly when we need to."

— **Anthony Mejia,** Vice President of Information Technology, Lazy Dog Restaurants
