

8x8 Meetings

Meet now. Easily collaborate from anywhere on any device using the most integrated video and audio conferencing.

What businesses are facing today

- End users frustrated with buggy video and poor audio quality that wastes time and makes it hard to actually get stuff done during meetings?
- Employees suffering from dizziness due to swiveling their chair between multiple applications?
- IT having difficulty governing shadow IT applications that continue to pop up and remain an unsecured threat?
- Is joining a meeting hard because of all the steps it takes to make that happen, especially from a mobile device?

Consolidate multiple apps for video conferencing, team messaging, and telephony into one

Instead of asking your employees to download 3 or more apps, they now only need one — no more swivel chair for them! With this level of integration, it takes just one click to move from call to chat to video conferencing while maintaining content and context along the way. This level of consolidation also means only one application to administer and configure for IT. Now they can focus on higher-impact work with the time savings.

Key Benefits

- Conduct shorter, more productive meetings
- Deliver more creative outcomes
- Support mobile distributed workforce
- Reduce IT time spent on low-impact work
- Build stronger relationships among employees, customers, partners, and vendors

Deliver reliable, crystal clear video and audio conferencing quality

Web conferencing is enhanced through HD quality video and voice for up to 100 participants. Rest assured the quality will be ever-present due to our patented technology. Additionally, all your data is protected by the highest levels of security and compliance.

Easily video conference from any device to make interactions seem as if you're there in person

It's almost like you're there in person, even when you can't be. It just takes one click to join or start a meeting from your computer, iPad, iPhone, Android, or a conference room phone. Attendees don't even need an app to join.

Connect people across offices, internally and externally

Bring people together to collaborate no matter where they're located. 8x8 integrates with your calendar system so you can schedule a meeting with just one click. Share your screen instantly to get everyone on the same page. Record the meeting to reference later or to send to those who couldn't make it.

The name 8x8 refers to the basic building block of video compression (8 pixels by 8 pixels), of which we were a pioneer. We've carried this technology leadership forward into communications using our 160+ patents to provide one communications platform that is tried and true, so you can stop wasting time and start meeting — productively. Communications. Transformed.
