# Incident Response Retainer

## Stay ahead of cyber threats.

**Arete's Incident Response Retainer gives you priority access to incident response experts if you experience a cyber incident – minimizing downtime, cost, and operational impact. In today's evolving threat landscape, this retainer solution increases preparedness and provides peace of mind. You can leverage unused hours for expert-led solutions to increase your cyber resilience.**

## Response

In the case of a cyber incident, we create a customized incident response plan to contain and eradicate malicious activity, determine evidence of data exfiltration, and help you make informed compliance decisions.

Included Services:

- Ransomware Response
- Threat Intelligence
- Security Validation, Monitoring, and Containment
- Forensic Analysis
- Data Mining and Document Review
- Report of Findings
- Expert Witness Testimony
- Threat Actor Communications, Compliance, and Ransom Payment Facilitation

## Resilience

Unused retainer hours may be utilized for any of Arete's Cyber Strategy & Defense Services, including but not limited to:

### Assessments

- Security Controls Assessment
- Penetration Testing
- Vulnerability Assessment
- Cyber Risk Assessment

### Security Program Preparation

- Business Continuity/Disaster Recovery Plan
- Incident Response Readiness Assessment
- Security Awareness Training

### Security Program Development

- Cyber Risk Advisory
- Tabletop Exercise
- Phishing Test
- Remediation Services

**Enhance your security posture and stay ahead of cyber threats with Arete's expert Response and Resilience solutions.**
