

SNACK TIME

a whale of a roll

Create tasty spouting-whale snacks!

ingredients:

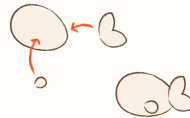

- raisins
- bread dough (fresh dough or defrosted dinner roll dough)
- string cheese sticks

The recipe:

- 1 Shape a fist-sized ball of the dough into an oval shape. This will be the whale's body.

- 2 Shape a fin and tail from more dough. Then stick them to the body.

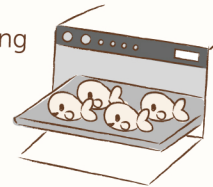

- 3 Stick a raisin in the dough for an eye.

- 4 Use a pair of clean scissors to cut a smile into the front of the whale.

- 5 Bake the rolls according to the bread dough instructions and let cool.

- 6 When the bread is cool, poke a small hole in the top. Place a piece of shredded string cheese inside to look like water is blowing from the whale's blowhole.
