

Follow Sneeker's steps to find Child's shoe Size

Youth Sizes

Toddler Sizes

Infant sizes

Place Heel Here

1 Have your child stand on the chart with heel placed at the bottom of the footprint.

2 Measure bare feet or keep socks on if that is how the shoes will be worn.

3 Always measure both feet to the longest toe.

4 Order the size that fits the larger foot best.

Kids' feet grow fast! Be sure to measure each time you order.
