Life Settlement Broker (Individual) License Class Fees:

Application Fee: This is the state fee that is charged at the license class level. This fee can be prorated depending on the license duration. The application fee is to be reduced to a half fee if the license is issued for a period of one year or less. If the license duration is greater than one year, then the full fee will apply, and no prorating is necessary.

The expiration date for individual Life Settlement Brokers will be the applicant's date of birth in an odd/even year (based on the applicant's year of birth supplied on the application).
