

# Tabletop Fire Bowl

## INSTRUCTIONS FOR USE

**WARNING!**

**FLAMMABLE!**

**EYE IRRITANT!**

**SKIN IRRITANT!**

### YOUR SAFETY IS VERY IMPORTANT TO US - PLEASE READ

PLEASE USE PROPERLY AND FOLLOW INSTRUCTIONS – FAILURE TO DO SO MAY RESULT IN PROPERTY DAMAGE, INJURY, OR DEATH

**CHOOSING WHERE TO USE:** Set your fire bowl on a level surface. Do not place the fire bowl under flammable objects such as umbrellas, awnings, or drapery or near combustible items such as wood structures, fuel, clothing, or dried vegetation. Do not handle fire bowl while the can is burning.

**PROPER FUEL CANISTER USE:** Use only Solo Stove Smokeless Gel Fuel, TerraFlame, or single use gel fuel cans measuring 3.5" dia. x 4" tall. Dispose or recycle canister after use – do not refill canister. Do not attempt to handle canister until cool.

### PROPER PRODUCT USE:

- Do not smoke near fuel
- Store away from open flames such as pilot lights of any object that sparks
- Do not touch or move device while flames are present
- Allow device to cool completely before handling
- Smokeless Gel Fuel canisters will burn for up to 3 hours. Each canister can be lit, extinguished, and then relit, depending on the desired length of time for use. Do not refill the canister. Proper performance with other gel fuels cannot be assured
- **KEEP OUT OF REACH OF CHILDREN AND PETS**
- Only use an extended lighter or long fireplace match to ignite gel fuel.
- Do not obstruct or inhibit flame by placing anything on or above the device.
- Do not mix Smokeless Gel Fuel with any other substance
- Never leave burning device unattended

### FIRST AID TREATMENT:

**Fuel contains isopropanol. If swallowed, call poison control center at 800-222-1222, 911, hospital, or doctor immediately. If swallowed, dilute by drinking lots of water.**

### DO NOT INDUCE VOMITING.

- If fuel spills on skin, immediately wash with soap and water
- If fuel gets in eyes, rinse with cool water
- If inhaled, move into fresh air immediately
- If fuel spills on clothes, remove as soon as possible and wash
- If symptoms from exposure persist, consult a doctor immediately

If fire is extinguished before fuel is done, let stand for at least 10 minutes before attempting to re-ignite. Once can is cool, follow TerraFlame ignition procedures.

**Active ingredients:** Isopropanol, Ethanol, Cyclohexylamine.

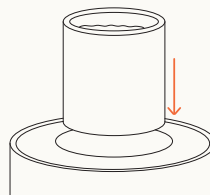

This product has not been registered by the US EPA.

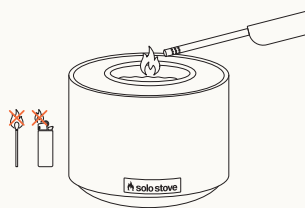

**Step 1:** Shake gently

**Step 2:** Open

**Step 3:** Place in Cinder
