Critical Care/Emergency Medicine Track

PG-1	PG-2	PG-3
3 blocks Inpatient Floor	3 blocks Inpatient floor night float/swing shift	2 blocks Inpatient floor senior
1 block Inpatient Subspecialty	1 blocks PICU	1 block PICU
1 block HemOnc	1 block NICU	1 block Pediatric ER
1 block Pediatric ER	1 Block inpatient day/CCP ¹	1 block Leadership ²
1 block Developmental/Behavioral	1 block Primary Care Experience	1 Block advanced subspecialty ³
1 block Adolescent	1 Block Research	1 Block NICU
1 block Clinic Immersion/Advocacy	1 block Anesthesia/Sedation	6 blocks Electives ⁴
1 block Elective ⁴	1 block ED	
1 block Newborn Nursery	3 blocks Electives ⁴	
1 block NICU		
1 Block Cardiology		

Track Logistics

1 - Pediatric Skills: can be an tailored (by resident) to focus on the needs for that individual (PICU, NICU or EM)

2 – Leadership: we strongly encourage a leadership block in the PICU or NICU. Other options include hospitalist leadership or resident as teacher

3 – Advanced Subspecialty: please discuss with chiefs as goal is a wide variety of electives – may be able to convert to primary elective experience

4 - Electives:

- You must elect at least 6 electives from Tier 1 and Tier 2 (3 of them must be from Tier 1)
 - Tier 1 electives: child abuse, genetics, A/I, cardiology, dermatology, endocrine, GI, ID, nephrology, neurology, pulmonology, rheumatology
 - Tier 2: Child psych (included on primary care track), hospice/palliative, neurodev, anesthesia (included in ICU/hospitalist), dentistry, ophthalmology, orthopedic surgery, ENT, PM&R, radiology, surgery, sleep, sports med.
- We strongly encourage pediatric surgery for those on the ICU track

Clinic: PGY3 half day in Peds Clinic and another half day to be arranged with program leadership in space of interest

Primary Care Track

PG-1	PG-2	PG-3
3 blocks Inpatient Floor	3 blocks Inpatient floor night float/swing shift	2 blocks Inpatient floor senior
1 block Inpatient Subspecialty	1 block PICU	1 block PICU
1 block HemOnc	1 Block inpatient day/CCP	1 block NICU
1 block Pediatric ER	1 block Community Pediatrics	1 block Pediatric ER
1 block Developmental/Behavioral	½ Block Business of Medicine	1 block Newborn Nursery
1 block Adolescent	1 block NICU	1 block leadership: Resident-as-Teacher
1 block Clinic Immersion/Advocacy	5½ blocks Electives ²	1 block Advanced Developmental/Behavioral/Psychiatry
1 block Newborn Nursery		1 block Community Pediatrics ¹
1 block NICU		4 blocks Electives ²
1 block Elective ²		
1 Block Cardiology		

Track Logistics

1 - COMMUNITY PEDIATRICS #2: Rural option (Cadillac) or Inner City option (Cherry Street, Baxter, Clinica Santa Maria, Browning Claytor) available

2 - Electives:

- You must elect at least 6 electives from Tier 1 and Tier 2 (3 of them must be from Tier 1)
 - Tier 1 electives: child abuse, genetics, A/I, cardiology, dermatology, endocrine, GI, ID, nephrology, neurology, pulmonology, rheumatology
 - Tier 2: Child psych (included on primary care track), hospice/palliative, neurodev, anesthesia (included in ICU/hospitalist), dentistry, ophthalmology, orthopedic surgery, ENT, PM&R, radiology, surgery, sleep, sports med.

Clinic: PGY-3 half day clinic in Peds Clinic and another half day in the office of their choosing pending AGP attending approval

Scholars Track (Global Health, Lifestyle Medicine, Medical Education)*

PG-1	PG-2	PG-3
3 blocks Inpatient Floor	3 blocks Inpatient floor night float/swing shift	2 blocks Inpatient floor senior
1 block Inpatient Subspecialty	1 blocks PICU	1 block PICU
1 block HemOnc	1 block NICU	1 block NICU
1 block NICU	1 Block inpatient day/CCP	1 block Pediatric EM
1 block Pediatric ER	1 block Research ²	1 block Newborn Nursery
1 block Developmental/Behavioral	1 block Community Pediatrics	1 block International Away Elective ¹
1 block Adolescent		1 block leadership ⁵
1 block Clinic Immersion/Advocacy	1 block Peds EM	5 blocks Electives ⁴
1 block Newborn Nursery	1 block Local/International/Rural ³	
1 block Elective ⁴	3 blocks Electives ⁴	
1 Block Cardiology		

****Participation in this track is by approval only. Please indicate interest in this track towards the end of PG-1 year so we can work on customizing your experiences based on your scholarly goals. We want this track to meet your needs.**

Track Logistics

1 - International Away Elective: options for going away for a shorter period of time are available; can take place in the United States in a resource limited setting

2 – Research: research ideation must be developed prior to this elective and shared with DOSA (Dr. Eric Kort)

3 – International: only one away block will be approved during residency. If global health is your interest, we suggest using this block for rural experience, local international elective (discuss with program leadership) or other block related to your scholarly work

4 - Electives:

- You must elect at least 6 electives from Tier 1 and Tier 2 (3 of them must be from Tier 1)
 - Tier 1 electives: child abuse, genetics, A/I, cardiology, dermatology, endocrine, GI, ID, nephrology, neurology, pulmonology, rheumatology
 - Tier 2: Child psych (included on primary care track), hospice/palliative, neurodev, anesthesia (included in ICU/hospitalist), dentistry, ophthalmology, orthopedic surgery, ENT, PM&R, radiology, surgery, sleep, sports med.

5 – Leadership: Leadership options include hospitalist, resident-as-teacher, PICU/NICU. Other arrangements could be made.

Clinic: PGY3 half day in Peds Clinic and another half day in another setting once approved by AGP attendings

Subspecialty Track

PG-1	PG-2	PG-3
3 blocks Inpatient Floor	3 blocks Inpatient floor night float/swing shift	2 blocks Inpatient floor senior
1 block Inpatient Subspecialty	1 blocks PICU	1 blocks PICU
1 block HemOnc	1 block NICU	1 block NICU
1 block NICU	1 block Pediatric Skills	1 block Pediatric ER
1 block Pediatric ER		1 block leadership ⁴
1 block Developmental/Behavioral	1 Block Research ²	1 block Advanced Subspecialty ¹
1 block Adolescent	1 Block Inpatient Day/CCP	
1 block Clinic Immersion/Advocacy	1 Block Newborn Nursery	6 blocks Electives ³
1 block Newborn Nursery	3 Blocks Elective ³	
1 block Elective ³	1 Block community Pediatrics	
1 Block Cardiology		

Track Logistics

1 - Senior Subspecialty: will be required depending upon the subspecialty of choice

2 – Research: research ideation must be developed prior to this elective and shared with DOSA (Dr. Eric Kort)

3 - Electives:

- You must elect at least 6 electives from Tier 1 and Tier 2 (3 of them must be from Tier 1)
 - Tier 1 electives: child abuse, genetics, A/I, cardiology, dermatology, endocrine, GI, ID, nephrology, neurology, pulmonology, rheumatology
 - Tier 2: Child psych (included on primary care track), hospice/palliative, neurodev, anesthesia (included in ICU/hospitalist), dentistry, ophthalmology, orthopedic surgery, ENT, PM&R, radiology, surgery, sleep, sports med.

4 – Leadership: Leadership options include hospitalist, resident-as-teacher, PICU/NICU. Other arrangements could be made.

Clinic: PGY3 half day in Peds Clinic and another half day in subspecialty setting once approved by AGP attendings

Hospitalist Track

PG-1	PG-2	PG-3
3 blocks Inpatient Floor	3 blocks Inpatient floor night float/swing shift	2 blocks Inpatient floor senior
1 block Inpatient Subspecialty	1 block PICU	1 blocks PICU
1 block HemOnc	1 block NICU	1 block NICU
1 block NICU	1 block Pediatric EM	1 block Pediatric ER
1 block Pediatric ER	1 block Community Pediatrics	1 block Newborn Nursery
1 block Developmental/Behavioral		1 Block Advanced PICU or Lakeland Community Hospital
1 block Adolescent	1 block Pediatric Skills	1 block Leadership: Hospitalist
1 block Clinic Immersion/Advocacy	1 block Research/QI ²	4 blocks Electives ¹
	1 Block Anesthesia/Sedation	
1 block Newborn Nursery	3 Blocks Elective ¹	
1 block Elective ¹		
1 Block Cardiology		

Track Logistics

1 - Electives:

- You must elect at least 6 electives from Tier 1 and Tier 2 (3 of them must be from Tier 1)
 - Tier 1 electives: child abuse, genetics, A/I, cardiology, dermatology, endocrine, GI, ID, nephrology, neurology, pulmonology, rheumatology
 - Tier 2: Child psych (included on primary care track), hospice/palliative, neurodev, anesthesia (included in ICU/hospitalist), dentistry, ophthalmology, orthopedic surgery, ENT, PM&R, radiology, surgery, sleep, sports med.

2 – Research: research ideation must be developed prior to this elective and shared with DOSA (Dr. Eric Kort)

Clinic: PGY3 half day in Peds Clinic and another half day in inpatient setting once approved by AGP attendings
