5.	If voiding or removing an Out of Hospital Do Not Resuscitate (OOH DNR) form, inform the patient's physician	It is best practice to inform the patient's attending/PCP physician(s) of a change in preference for an OOH DNR order. Based on preferred workflow, message the physician. Example script: <i>Please note that I have voided</i> <i>the Out of Hospital DNR for (patient name) per</i> <i>his/her request. Please follow up accordingly.</i>	Clinician
