Purpose

The purpose of the Priority Health Postgraduate Year One (PGY1) Managed Care Pharmacy Residency Program is to build upon the Doctor of Pharmacy education and experiences to develop exceptional managed care pharmacist clinicians and future leaders. The program will provide comprehensive training to develop a diverse patient care experience, evidence-based clinical decision making, project management, and leadership skills. Residents who successfully complete the program will be prepared for clinical, business, operations, and leadership roles within managed care pharmacy practice.

Overview

Our Health Plan: With over 30 years in healthcare, Priority Health is the second largest health plan in Michigan, offering an extensive portfolio of health benefits options for employer groups and individuals, Medicare, and Medicaid plans, with fully funded and self-funded options. Many pharmacy operations are done in-house to include prior authorization review as well as development and maintenance of a custom formulary designed to best serve our population. Serving more than one million members each year and offering a broad network of primary care physicians and specialists in Michigan, Priority Health continues to be recognized as a leader for quality, customer service, transparency, and product innovation.

Our Team: The pharmacy department within Priority Health includes more than 25 full-time pharmacists and more than 35 non-pharmacist staff in support of the development and management of both pharmacy and medical benefits. Teams are focused by plan type across three primary market types: Commercial (individual and employer-based), Medicaid, and Medicare. The Business Operations team encompasses all market types and focuses on utilization management and formulary development through the Pharmacy & Therapeutics (P&T) Committee processes.

Our System: Formed from two leading health systems in Michigan (Beaumont Health and Spectrum Health), which is undergoing a name change to Corewell Health throughout 2023, is a not-for-profit health system that provides care and coverage with an exceptional team of 64,000+ dedicated people— including more than 11,500 physicians and advanced practice providers and more than 15,000 nurses offering services in 22 hospitals, 300+ outpatient locations and several post-acute facilities—and Priority Health, a provider-sponsored health plan serving over 1.2 million members across the state of Michigan. Pharmacy services across the system are comprehensive and include inpatient acute care for adult and pediatric populations, ambulatory care services, and health plan services. There are over 200 pharmacists employed within the system.

The Priority Health Managed Care Resident will have the opportunity to work in collaboration with the Beaumont Health-Spectrum Health system pharmacists and residents.
Program Overview

Strengths of the Priority Health PGY1 Managed Care Pharmacy Residency Program:

- Virtual-based work environment consistent with the Remote and Flexible Remote Work policy
- Practice in a large health plan with over 1.2 million members across Commercial, Medicare, and Medicaid plans
- Part of a large, integrated health system throughout Michigan
- Focus on developing leadership skills in collaboration with health plan leaders
- Schedule flexibility to allow residents to pursue experiences in their areas of interest with a variety of elective learning opportunities
- A Residency Advisory Committee (RAC) focused on collecting and incorporating feedback from residents directly into the program structure
- Each resident selects a practicing managed care pharmacist to be a mentor for the entirety of the residency
- In-house development and management of the custom formulary unique to each market segment
- In-house utilization management including clinical prior authorization reviews
- Resident opportunity to earn a teaching certificate through the Pharmacy Education Development and Lecture Series presented by Ferris State University College of Pharmacy
- Residents participate in a Research Seminar Series while completing longitudinal research projects
- Additional teaching opportunities on rotations and with the Pharmacy Grand Rounds presentation series

**Program Coordinator:**
Chad Henry, PharmD, CSP (Certified Specialty Pharmacist)
Clinical Pharmacy Specialist
Chad.Henry@priorityhealth.com
Program Requirements

Required Longitudinal Experiences:

1. Service Commitment – 12 months

   The resident’s service commitment consists of staffing coverage determinations for 4 hours per week and being responsible for an on-call staffing every fourth weekend. One project day will replace the scheduled rotation day surrounding the worked weekend. Additionally, the resident is expected to staff one holiday weekend in the first quarter of the calendar year and up to one additional holiday weekend.

2. Research Project – 12 months

   The resident will be responsible for completing at least one long-term residency project related to the practice of managed care pharmacy. Guidance and support will be provided by the Priority Health team. Completion will require a poster presentation at the national AMCP meeting and up to two local presentations to share the results of the project. The month of April will be reserved for project time, conference attendance, and time off for interviews.

3. Clinical Pharmacy Outreach Services – 9 months, ~ 8 hours per week

   This learning experience is designed to give the resident an opportunity to effectively evaluate drug therapy, make treatment recommendations, develop interpersonal communication skills, practice motivational interviewing, foster patient-focused interdisciplinary relationships, improve upon knowledge in quality-based measures, and measure the impact formulary management decisions can have on individual patients. The resident will assist in helping manage patient population health by completing medication adherence interventions, comprehensive medication reviews, addressing gaps in care, and other clinical pharmacy services.

Required Learning Experiences:

1. Orientation / Service Commitment – 6 weeks

   An introduction to the organization and pharmacy department by starting with the entry-level basics and working up to executive level orientation. The resident will begin to grasp how Priority Health operates and will train as an entry-level clinical pharmacist for the first six weeks of their experience.

2. Utilization Management – 6 weeks

   The resident progresses from an entry-level clinical pharmacist toward proficiency in clinical decision making as it relates to prior authorization, step therapy, drug quantity limits, and additional cost management strategies. Time is dedicated to learning each market segment and understanding the differences between Individual, Commercial, Medicare, and Medicaid utilization management. An in-depth introduction to management of clinical pharmacy services is provided throughout this time.
3. Pharmacy Operations & Formulary Management – 6 weeks

Introduction to the in-house pharmacy and therapeutics (P&T) committee where new to market drugs undergo an in-depth review and coverage decisions are made. The resident will be active in preparing drug monographs and presenting recommendations to the P&T committee members. Analysis of drug spend and utilization will guide management of the custom formulary. Additionally, the resident will work alongside the Director of Pharmacy Operations to better understand workforce management, collaboration with pharmacy benefit managers (PBMs), pharmacy network structure, and specialty pharmacy programs. Opportunities for education in business analytics and process improvement are also explored.

4. Government Programs & Medicare Quality – 6 weeks

Focusing deeper within government programs including Medicaid and Medicare, the resident will gain experience in government relations and program leadership. Specific focus will be given to experiencing health-plan based patient care via medication therapy management (MTM) and the management of Medicare Advantage (Part D) Star rating and objectives. Considerable time will be spent with the Medicare Quality pharmacist team and market segment pharmacist leads in both the Medicare and Medicaid programs.

5. Pharmacy Partnerships & Innovation – 6 weeks

A deeper dive into collaboration with external and internal stakeholders within the pharmacy department. The resident will gain experience with provider relations, healthcare vendor services, commercial employer groups, business analytics, and pharmacy program innovation.

6. Executive & Organizational Leadership – 6 weeks

The resident will work in collaboration with Priority Health leaders within the pharmacy department to develop key understandings in relation to leading a successful team and innovative pharmacy programs within a health plan. Additional focus will be given to leadership roles and collaboration with the Academy of Managed Care Pharmacy (AMCP).

Elective Learning Experiences:
Residents will select a minimum of TWO four-week elective rotations

1. Ambulatory Care

During this rotation, the resident will work with clinical pharmacy specialists in SHMG primary care offices. This rotation is designed to introduce the resident to a variety aspects of ambulatory care pharmacy focusing primarily on patient care activities. These activities are performed under a collaborative practice agreement and will include but are not limited to medication reviews/medication therapy management (MTM) and chronic disease state management.

2. Medication Care Coordination – Health System
The resident will learn from pharmacists and pharmacy technicians within the Medication Care Coordination team and provide specialized pharmacy services across the health system. These services include obtaining authorizations for medical and prescription drugs, providing clinical support for therapeutic optimization of patients’ medication plans, facilitating cost-effective medication procurement, and developing reporting and productivity metrics to share with key stakeholders. Additionally, the resident will gain exposure to a wide variety of clinical settings across inpatient, ambulatory, and infusion sites in which pharmacy teams provide support.

Other elective learning experiences may be developed based on resident interest and preceptor availability.

**Additional Learning Experiences:**

- **Teaching Certificate**
  - Earn a teaching certificate upon completion of a partnering college of pharmacy's program. Gain firsthand experience by taking advantage of opportunities to present didactic lectures, lead discussion groups, and precept APPE students.

- **Leadership Seminars**
  - In conjunction with the Beaumont Health-Spectrum Health PGY1 and PGY2 residents, leadership seminars will occur monthly on a variety of topics. PGY1s are required to lead at least one session throughout the year, usually in the month following a management rotation.
Stipend and Benefits

Pharmacy residents will receive a competitive compensation package which includes an annual salary, health benefits, and paid time off.

**Start date:** June 26, 2023

**Stipend / salary:** The annual residency stipend is $49,500. Residents have the option of staffing additional weekends outside of the service commitment at pharmacist wage.

**Benefits:** Residents are eligible for medical, dental, vision, and life insurance.

**Paid Time Off (PTO):** PTO days include vacation, sick, and personal days. Residents accrue PTO hours during each pay period, resulting in approximately 15 days of PTO during the year. Unused PTO is paid out at the completion of employment. Additionally, Spectrum Health recognizes seven paid holidays (Independence Day, Labor Day, Thanksgiving, Christmas, New Year's Day, Martin Luther King Jr. Day, and Memorial Day).

**Travel expenses:** Paid travel expenses (hotel, registration, transportation) to attend the AMCP Annual Meeting and other required conferences

**Office & Resources:** In the flexible-virtual work environment, the resident has the option to use hotel space at Priority Health and/or work remotely. The resident will be provided with a company-owned laptop and appropriate hardware needs. Office supplies and photocopying privileges are available on site at Priority Health. Business cards are available through Brand Central.

**Out-of-State Residents**
Priority Health offers the unique experience of a fully virtual residency. For pharmacy residents that choose to reside in their state of choice for the duration of the year, additional requirements apply:

- Must obtain licensure to practice pharmacy in the state of residence within 90 days of hire. Failure to comply will result in dismissal from the program.
- Mandatory in-person attendance at national conferences and two additional on-site meetings/conferences per academic year.

*Subject to the system-wide policy on Remote and Flexible Remote Work, team members in an eligible position with an approved Remote (Out of State) Work Request Form are eligible to work in the following states: Alabama, Florida, Georgia, Indiana, Iowa, Kentucky, Mississippi, Missouri, Nebraska, Nevada, New Hampshire, North Carolina, Ohio, Oklahoma, South Carolina, Tennessee, Texas, Utah, Virginia, and Wisconsin
Priority Health  
PGY1 Managed Care Pharmacy Residency  
Program Overview

Application

The Priority Health PGY1 Residency program participates in the match and is seeking accreditation by ASHP (American Society of Health System Pharmacists) during the inaugural 2023-2024 academic year.

PGY1 National Matching Service Code: Pending

All PGY1 residency applications will be accepted through the Pharmacy Online Residency Centralized Application Service (PhORCAS).

Application deadline: December 31

Application Requirements:

- Completed Application (Basic Demographics)
- Letter of Intent (suggested 1-page limit)
- Curriculum Vitae
- Standardized Reference Forms in PhORCAS – candidates should submit a total of three completed references
- Verified Transcripts
- Extracurricular Information as outlined in PhORCAS

Applicant Requirements:

a. Qualified applicants are graduates of an Accreditation Council for Pharmacy Education (ACPE) accredited degree program (or one in process of pursuing accreditation) or have a Foreign Pharmacy Graduate Equivalency Committee (FPGECC) certificate from the National Association of Boards of Pharmacy (NABP) prior to residency start date. At minimum, the program must be a five-year pharmacy degree program.

b. All residents must obtain licensure to practice pharmacy in the state of residence within 90 days of hire. Failure to comply will result in dismissal from the program.

Interview

Interviews are required and take place during January or February. The exact structure, length, and format of interviews will be determined based on institutional and state visitor restrictions during the month of January 2023. All candidates selected for an interview will be expected to present a 15-minute presentation to members of the Priority Health PGY1 Residency Advisory Committee (RAC).

Match

This residency site agrees that no person at this site will solicit, accept, or use any ranking related information from any residency applicant.

All match offers are contingent upon successful completion of the application process including, but not limited to, reference checks, background checks, and obtaining state licensure as a pharmacist within 90 days of the start date.
