

## Family Medicine Residency Faculty Information 2021

	Name	Residency	Medical School	Professional / Clinical Interests	Why I teach?
	Robin O'Meara, MD FAFFP	Advocate Lutheran General Hospital	Loyola Stritch School of Medicine	Immunizations, pediatrics, gynecological procedures	Helping residents move from student mode to attending mode is an exciting and fulfilling part of medicine. I enjoy thinking about all the good our graduates go out and contribute to the world.
	Lauren Snyder, MD	Sparrow Hospital	New York Medical College	Telehealth, women's health, preventative medicine	I am passionate about improving the health of individuals and communities by teaching the next generation of students and to deliver patient-centered and evidence-based care.
	Michael Bouthillier, PharmD	University Hospital – University of Utah	Pharmacy School - University of Utah	Drug therapy outcomes, interprofessional education/ practice	It is professionally enriching to be part of a teaching and learning environment where we can directly apply what we've learned to the patient's need. It is an honor to help develop the next teams of health professionals.
	Benjamin Davidson, MD	Grand Rapids Medical Education Partners	University of Queensland School of Medicine	Hospital medicine, ICU, LGBTQ+ health	I can't imagine working outside of a teaching environment. I love sharing my experience and helping students and residents grow and learn.
	Harland Holman, MD	University of Michigan	Michigan State College of Human Medicine	Refugee health, procedures (including point of care ultrasound), integrating new technology such as microbiome, men's health, addiction and pain medicine	I love how teaching inspires me to learn, and how the education can improve patient care. I am involved in helping residents with research projects, and love seeing great ideas become great plans that can improve health to our community.
	Nichole Lambert, LMSW, SPADA, CAADC		Western Michigan University	Physician wellness, addiction medicine	I enjoy working with residents to build their confidence in treating mental health and addiction within their patient populations. I also enjoy helping residents through their residency by providing emotional support and guidance.

	Name	Residency	Medical School	Professional / Clinical Interests	Why I teach?
	Daniel Wallace DO	Sparrow Hospital	Michigan State University College of Osteopathic Medicine	Obstetrics, office-based procedures, OMT, pediatrics	Sharing my experience with medical students and residents and helping them progress to their desired goals. Sharing with them the joy and excitement of delivering babies.
	Brian Wilder, DO	Munson Hospital	Michigan State College of Osteopathic Medicine	Sports medicine, office-based procedures, lifestyle medicine, public health	Teaching is way to invest in the betterment of the medical system overall. Fostering an environment that encourages critical thinking, team-based care, and compassion allows residents to learn in a setting that provides high quality patient care. Furthermore, mentoring and partnering with residents as they mature in their medical career is very rewarding.
