How to Get Nord With an Activation Code

Follow these easy steps to get Nord products with an activation code. To get started, head to https://my.nordaccount.com/activate/

NordVPN   NordPass   NordLocker

Step 1

Enter your **activation code** into the first box, then type your email and click Continue.

Enter your activation code

| |

Enter your email

| name@example.com |

We'll create account for you or use the one you already have

Continue

Step 2

Open your email and **check for the verification code** in your inbox.

Verify your email with:

NA - 855127

The code will expire in 60 minutes. You'll need to restart registration to get a new one.

Step 3

Copy the verification code from the email we sent you and **paste it into the box.**

Verify your email with:

NA -

Didn't get the code? Try again

Step 4

If you're new, create a password for logging in to your Nord apps. If you already have a password, type your old password into the box to log in.

Create password
