

Holiday gift tags

These holiday gift tags are the perfect way to finish off your wrapping or to use as a magnet on the fridge! You can sign the back or print off a photo to show who it's from.

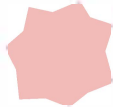

Print out the “Holiday gift tags” print-able. We recommend printing in color on card-stock 8.5” x 11” paper. Be sure to select “Print on both sides” and “Flip on the long side” in the settings so it comes out double sided.

Cut along the lines of the tags - the front and back should line up so you have a complete tag

Use a hole punch or scissors to cut out the hole.

Display on the fridge by gluing a magnet to the back or tie onto a present to use as a gift topper! If you use it as a gift topper, you can glue on a photo of you or your family for a personal touch!
