INSTRUCTIONS:

- 1** Print out the template pages on blue, white and green paper. Cut out each of the pieces. You can also use crayons to color the template instead of using colored paper.
- 2** Form the five body pieces into circles. To do this, add a line of glue at the end of each paper strip. Fold the strip into a circle, overlapping the two ends and gluing them together.
- 3** Glue the dragonfly wings near the top of a blue piece of cardstock paper. Then add glue along the back seam of each of the body pieces and glue them in a line down the center of the dragonfly wings to create the dragonfly body.
- 4** Glue each of the triangle grass pieces along the bottom of your blue cardstock.
- 5** Add googly eyes on your dragonfly.
