

3 Festive Fruit Decorations

- Print out onto card or paper
- Carefully cut around the illustrations
- Punch a hole at the top of each one
- Add some ribbon or string so they're ready to hang!

Bonus Activity

You could print out this page a couple of times and cut the leaf shapes out separately, so you can layer them on top using a sticky foam pad to add more dimension to your decorations.

You could also back the decorations with gold card so they look good from all angles!
