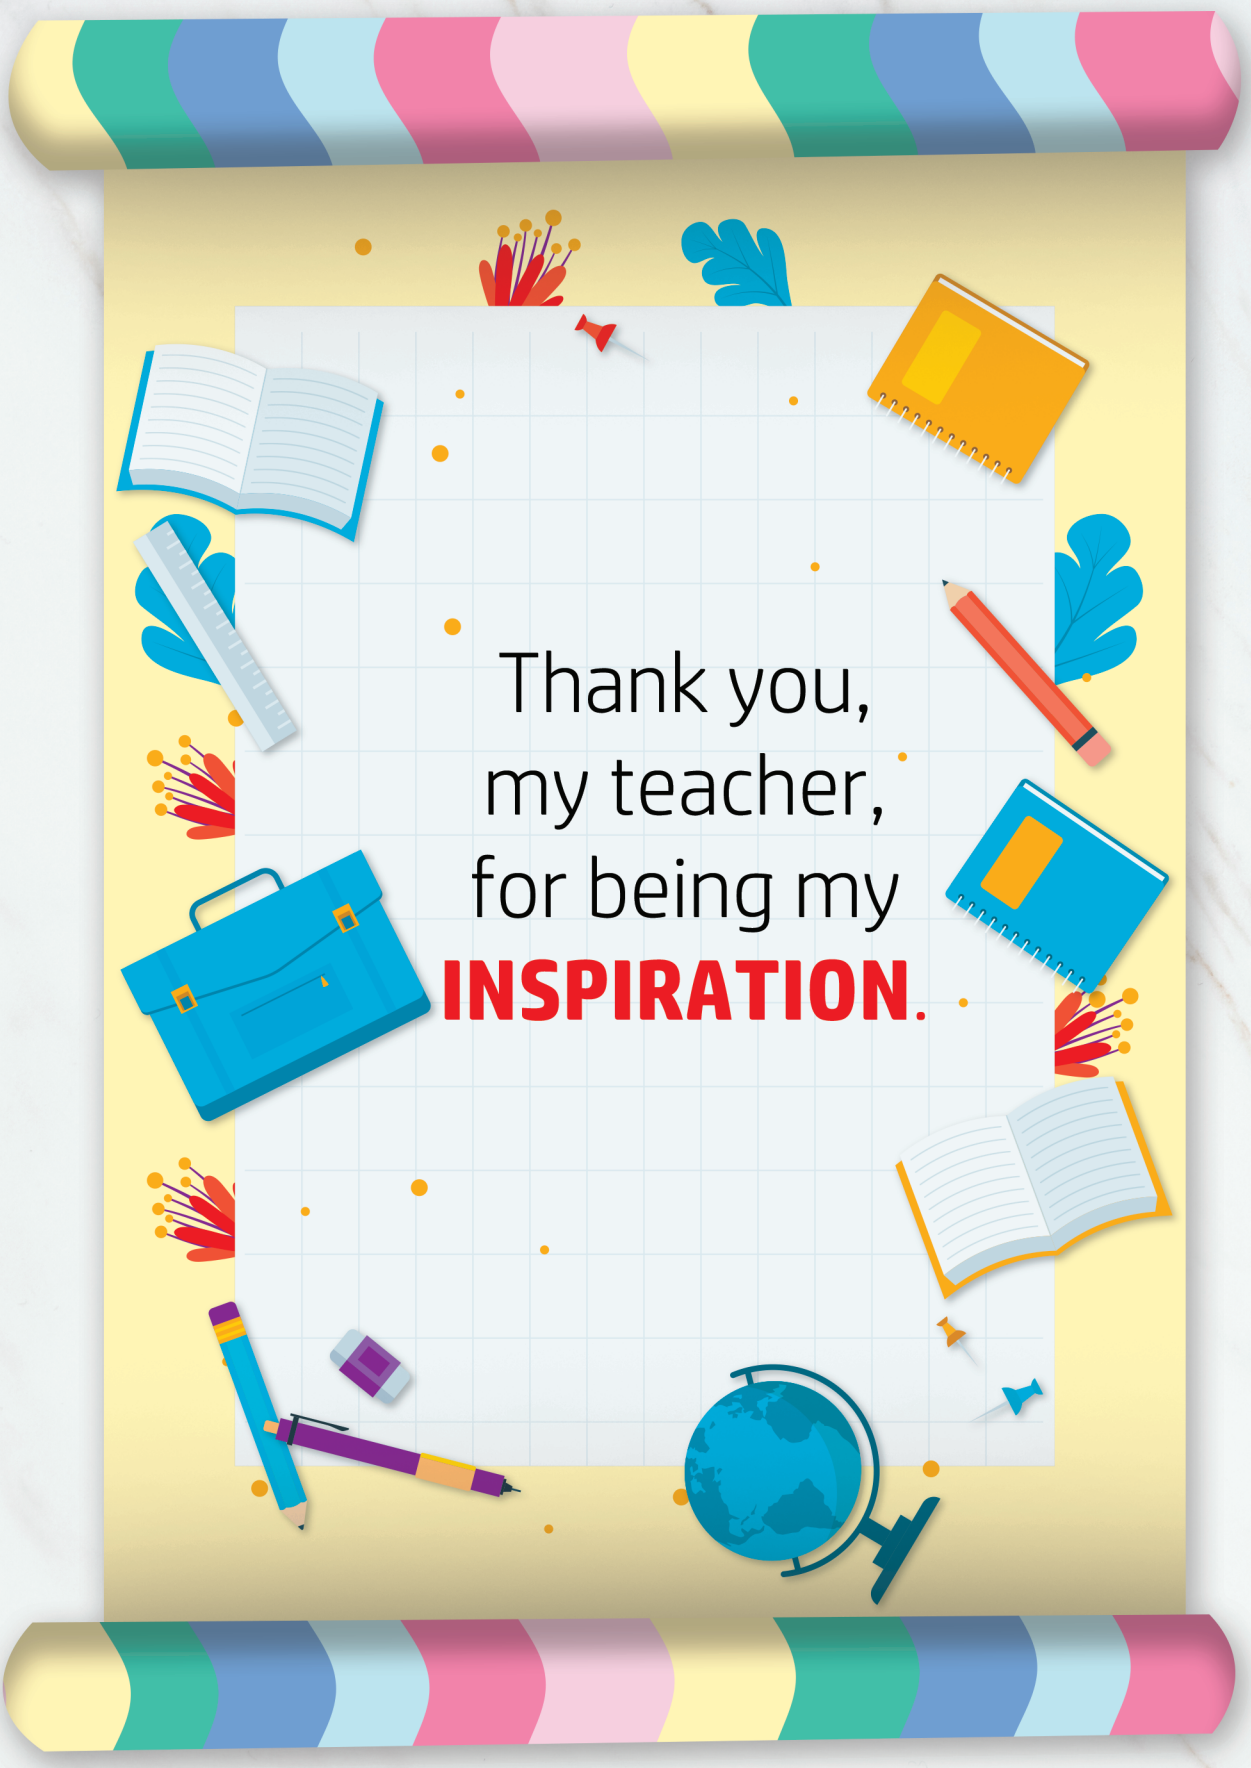
Teacher's Day Poster

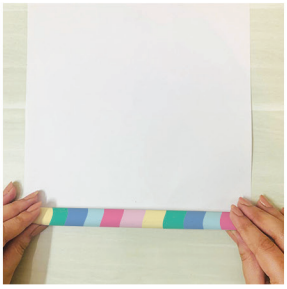


Instructions:

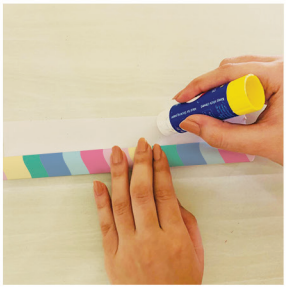
Tools: Printable sheet 1, sheet 2, sheet 3 and sheet 4, glue, pen/marker, scissors.

Steps to make it:

1. Print sheet 1 and cut along the dotted lines to get two halves.

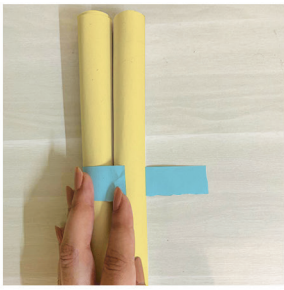


2. Place a pencil on one half the paper and roll it around the pencil to get a cylindrical shape. Apply glue on the glue area to secure the shape. Repeat the same for the other half.
Note: Once the paper forms a cylindrical shape, you can pull out the pencil from an open end.

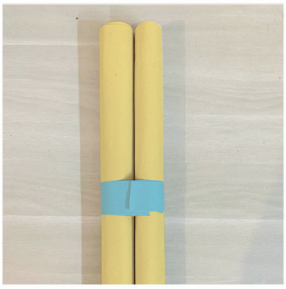


3. Apply glue on the glue area (back side of the paper) to secure the shape. Repeat this step for the other half.

4. Print sheet 2 and paste sheet 4 at the back of it. Now, paste the two cylindrical shapes on the top and the bottom of sheet 2 as shown. Now roll up the poster to close it.

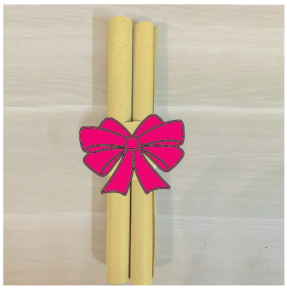


5. Cut shape 1 (strip) on sheet 5 and wrap it around the closed poster as shown and apply glue.



6. Keep it loose so that it can move up and down.

7. Cut shape 2 on sheet 5 to get a bow.



8. Paste the bow on top of the paper strip.

9. Your Teacher's Day poster is ready!
