

# Rainbow Mosaic

What you will need:

Colouring Pens  
Crayons or  
Pencils

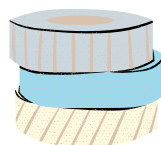

Scissors

Glue  
(gluestick will work fine)

or

Tape

Optional thin card to make  
the dice stronger

What to do:

Print out all pages. You can print in colour or black and white, if you use black and white you can add colour to the colour dice with colouring pens or pencils.

Carefully cut out the dice templates, fold along the lines and glue or tape the tabs to make two separate dice, one coloured and one numbered. You can glue the dice templates to cardboard before cutting for a stronger, longer lasting dice.

How to play:

Roll both dice then colour squares on the 100 chart.

Colour the amount of squares as rolled on the number dice in the colour that is rolled on the colour dice.

Continue until the whole mosaic is complete.

You can play with one or two players.

Some questions to ask when the mosaic is finished:

Is there a colour that is featured more?

Can you see any patterns?

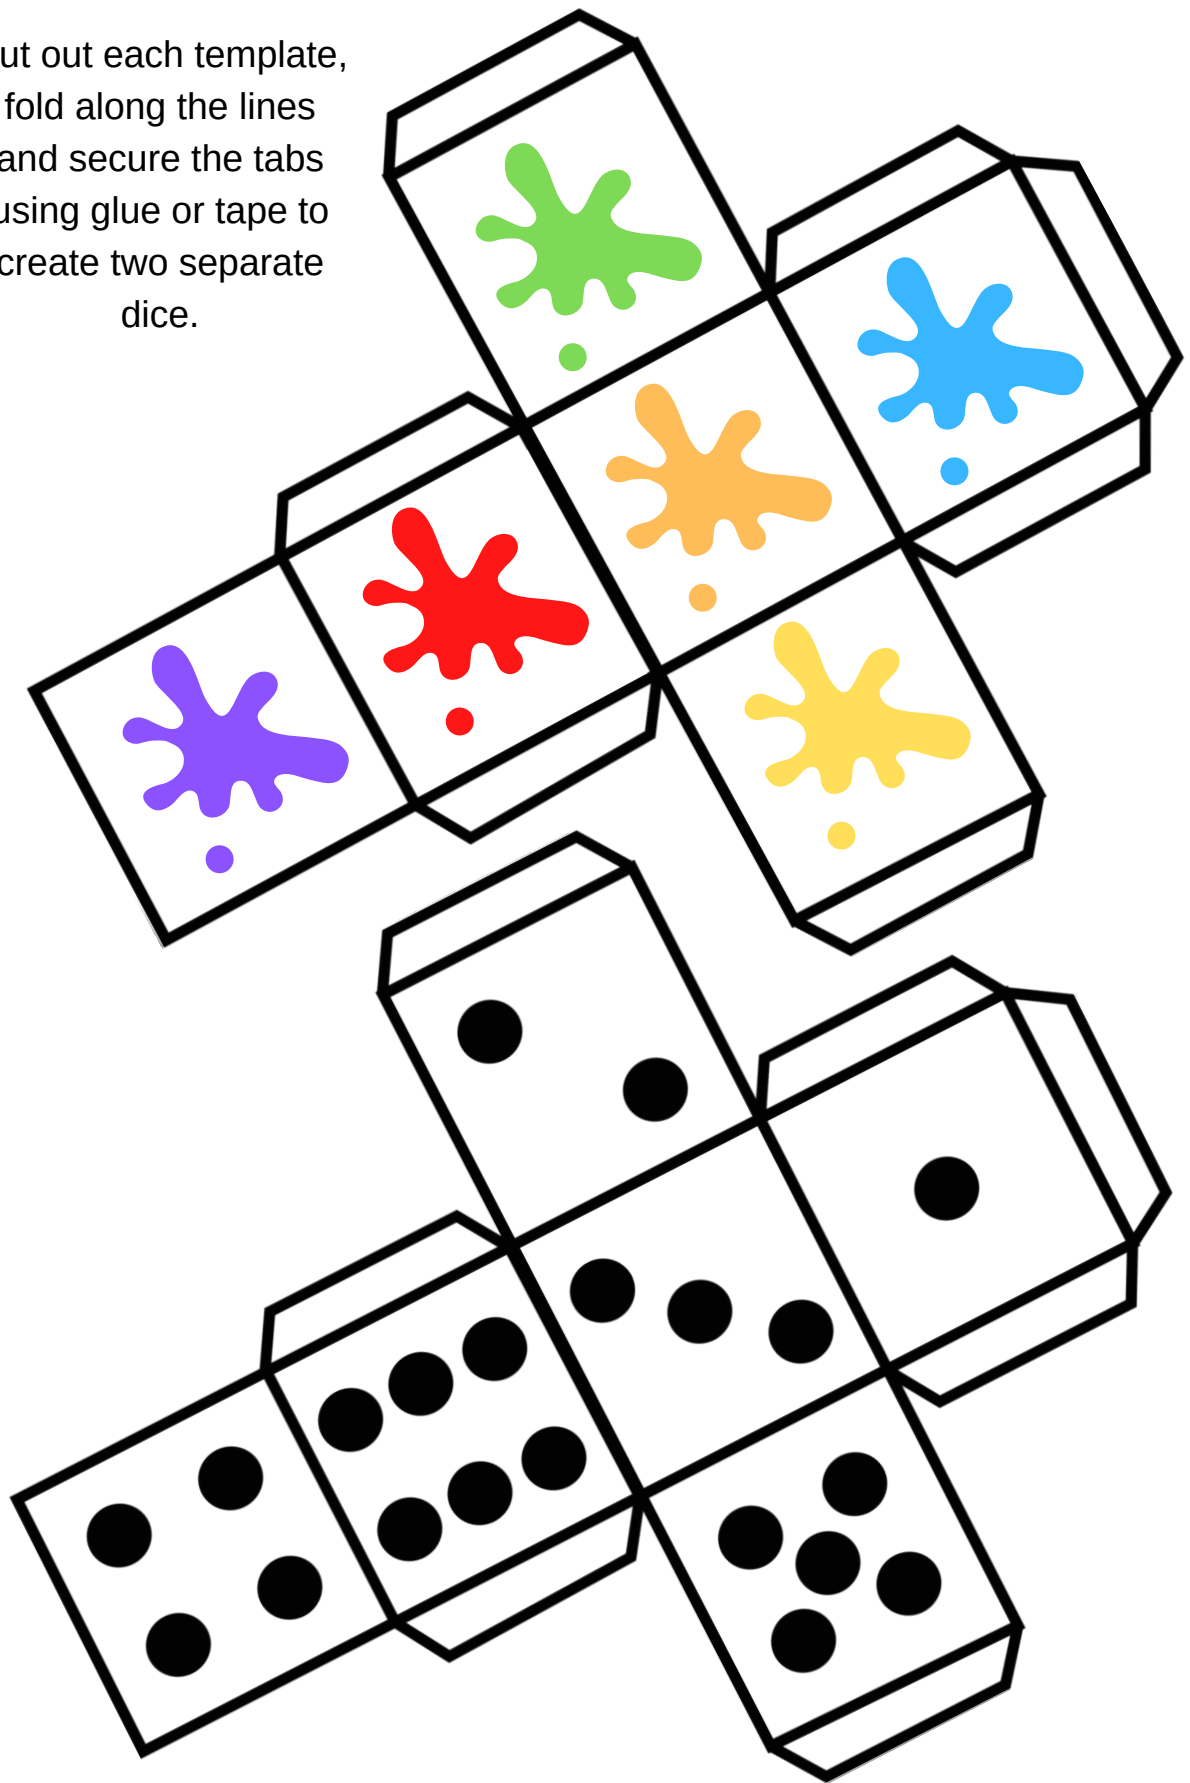

What number was rolled the most?

What colour was rolled the least?

Did any number or colour not get rolled at all?

Cut out each template,  
fold along the lines  
and secure the tabs  
using glue or tape to  
create two separate  
dice.

# Rainbow Mosaic

Roll both the dice. Use the colour you roll on the dice to colour the amount of squares shown on the number dice.  
Keep playing until the board is fully coloured.
