

# The Language of Flowers

3 notecards with hand cut paper flowers to assemble; the perfect way to show someone you're thinking of them.

To make, cut out each of the petals and stems and refer to the diagrams in the corners of the sheets. Use a small amount of high tack glue for best results and attach your flower neatly to the notecards with their definitions.

You can also use the end of a paintbrush or round pencil to gently curl the edges of the paper to bring each petal to life.
