

Dia de los Muertos Prayer Candle

Items you will need: Prayer candle, scissors, colored pencils, markers or crayons, glue stick, ribbon, yarn or string.

Print: Print the prayer candle image.

Color: Color in the black and white image with colored pencils, markers or crayons. The colors are up to you!

Scissors: Cut around the black edge of the prayer candle image.

Glue and layout: Take the image and place the printed side down on a hard, flat surface. Apply the glue to the backside of the image. Make sure that the entire backside is covered in glue (especially the edges). Turn it over and center it on the prayer candle and using your hand, apply even pressure all over the image, working from the center out to the edges. Really apply pressure to the edges until the entire image is glued down onto the prayer candle. When you're finished gluing, tie either ribbon, yarn or string around the top of the candle and you're all finished.

Enjoy!
