SMALL BUSINESS BOOTCAMP ACTIVITY

## **OBJECTIVES**

The big outcomes you are planning to achieve during the year

While you might hear some people refer to them as BHAGs (big, hairy, audacious goals), Objectives are outcome-driven achievements that move the needle in a big way for your business. Sometimes people interchange the words "goals" and "objectives," but they are quite different. For example, losing 10 pounds is a goal; being fit and healthy is an objective.

## REMEMBER

Think big! What are a few things you get really excited about accomplishing? What big outcomes will set your company up for long-term success? If you have team members, use this as a brainstorming opportunity to get input from everyone. You might be surprised to discover what other people believe is possible for the business to achieve.

## HERE ARE SOME EXAMPLES OF ANNUAL OBJECTIVES FROM BUSINESS OWNERS IN VARIOUS INDUSTRIES:

Health and beauty-get the product line on the shelves of a major big-box retailer

Marketing- become the agency of record for the top-10 largest firms in the area

Real estate-be named agent of the year with the highest sales volume in the office

YOUR BUSINESS TO ACHIEVE THIS YEAR				

ACTION: WRITE OUT THE RIG OUTCOMES YOU WANT
