

# HP Print your Grad

## Graduation Papercraft by Jess Deacon

Print out and build your own papercraft graduation kit from the comfort of your own home.

The series includes a graduation cap and graduation scroll, with instructions on how to construct both.

### #2 Graduation Scroll instructions

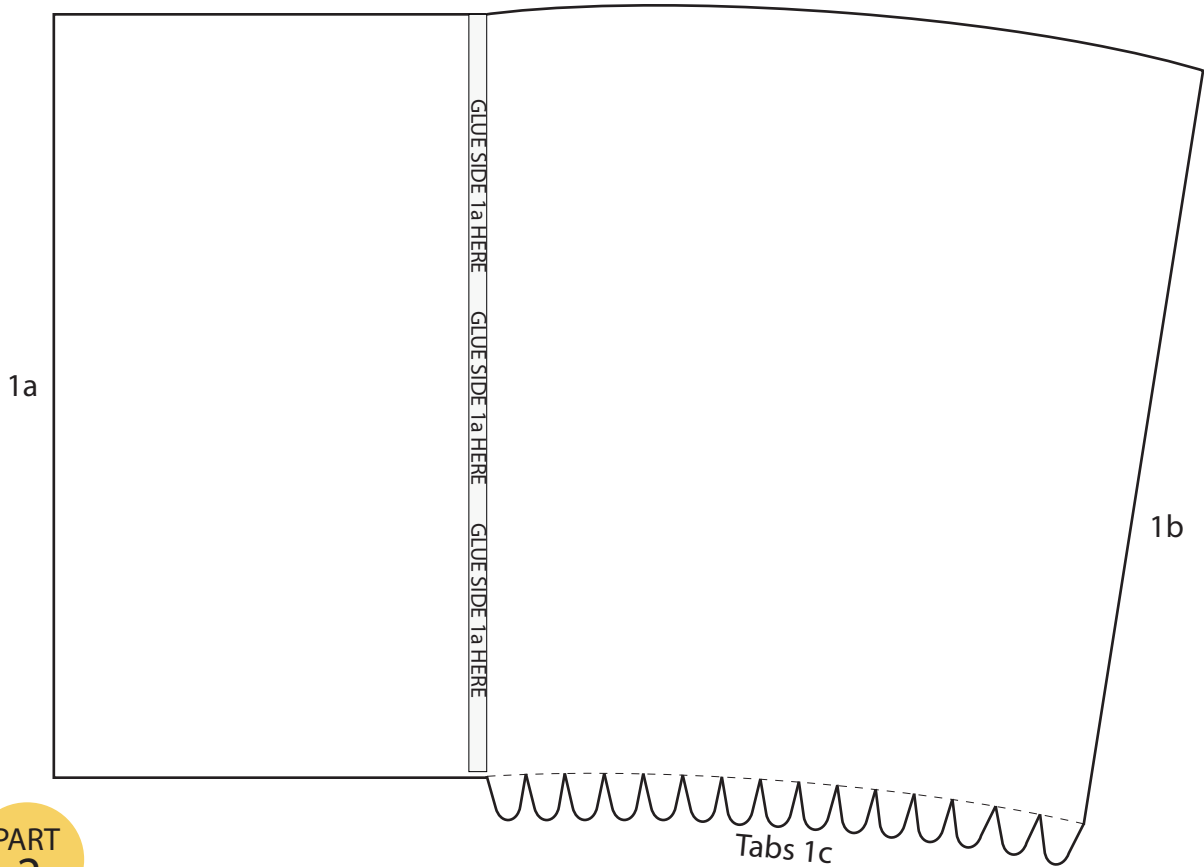

---

- 1 Cut out all parts. Use a craft knife for best results.
2. Carefully fold along all fold lines (see key). Before folding it is recommended to score the line lightly with a craft knife or a ballpoint pen that no longer has ink in it. This will make folding easier and more precise.
3. Take part 1 and roll side 1a inwards, glueing the edge to the marked tab. Once this is firmly glued in place, continue rolling in the same direction and glue the edge of side 1b to the outside, lining it up to where you glued side 1a. Repeat this action with part 2.
3. Take part 3 and glue side 3a on top of tabs 1c, and side 3b on top of tabs 2c.
4. Glue part 4 on top of part 3 to cover
5. Take parts 5 and glue tab 5a onto tab 5b. Then glue tab 5c onto tab 5d. Then take parts 6 and glue over the loops of parts 5 to hide the white.
6. Glue parts 5/6 together, one on top of the other diagonally, to make a bow shape (see photo).
7. Glue part 8 onto part 7 and then glue onto the bow shape.
8. Glue the bow onto part 4 (see photo for placement).
