

**Are you ready for this scavenger hunt? In this set you have:**

- 3 sets of card: orange, purple and black. A score board.
- A game board.
- These instructions.

**The objective of the game is to do scavenger hunts around your home to gain points. The number of points will be written down on the score board and they will give you a chance to move around the game board to gain more points and treats... or may be you get tricked....**

**First: cut all the cards and organise them in colours.**

**It is up to you how you play the game. You can make it very easy or very tricky.**

**Each kid can get 1-3 random cards. Either of the same colour or a combination of them:**

- **Orange cards: they are the easiest cards. You will need to find single and simpler objects.**
- **Purple cards: they are trickier. You will need to make or draw different Halloween objects.**
- **Black cards: they will be the thickest cards. You will need to find stuff around your house to dress up as a Halloween character.**

**How to play:**

- **Once you get the cards you will be given an amount of time to find, make or draw the different things. Check the times table below.**
- **Once the time is up, you will need to return to the room where the board is and receive your points. Check the points table below.**

- The points will be written on the score board. Use a pencil for this, so you can make amendments easily.
- Using the number of points that you achieve, move the same number of boxes on the board. Use small balls of paper in different colours as game pieces.
- After moving on the board you might need to amend the number of points on the score board.
- You can exchange your number of points for candy at the end of the game or after each scavenger hunt, this is up to you. The exchange rate of candy will be agreed with your adults. May be 2 points = 1 piece of candy, may be it is 3... this is up to them...

You can do as many scavenger hunts as you want until all the cards are finished. You might want to play for a certain amount of time and see how many scavenger hunts and rounds around the game board you manage to fit in.

#### Time table

Colour card	Times	Set your own times
Orange	1 minute	
Purple	5 minutes	
Black	10 minutes	

#### Points table

Colour card	Points	Set your own points
Orange	1 point	
Purple	5 points	
Black	10 points	

Extra points can be given for creativity or other skills.

Good luck!

Enjoy!
