

Easter Baskets

by LAURA K SAYERS

1 Choose a design from the next two pages and print it out - or make both of them!

2 Cut out the rounded square template with a pair of scissors or a craft knife.

3 Also cut down the four dotted lines, being careful to leave the square in the middle uncut. Then fold along the remaining lines, on the patterned side.

4 With the middle square forming the bottom of your basket, bring the two cut flaps with rounded corners together to meet in the middle.

6 Cut out the strip of paper for your handle and attach to the inside of the basket. Add the gift tag for the finishing touch!

5

Secure the two flaps with a small square of double-sided tape or glue. Repeat on the other side.
