

Midsommarkrans.

Klipp ut de två gröna remsorna och fäst ihop dem på ena sidan med lim eller tejp. Limma fast de långa gröna remsorna på hårdare papper innan du klipper ut om du vill ha mer stadga i kransen. Mätta och anpassa själv storleken på kransen innan du fäster ihop andra sidan. Klipp ut figurerna och dekorera din krans med blommor, bin och annat somrigt!
