

CACTUS CARD

SUPPLIES

Green cardstock

Tan Cardstock

Pencil

Markers

Googly eyes

Small Pom-poms

Scissors

Glue stick

INSTRUCTIONS:

1

Print out the template pages and cut out each of the pieces.

2

Fold your green cardstock in half to create a card. Line the cactus template piece along the folded edge of the green cardstock and trace it onto the card with a pencil. Cut out the traced cactus, making sure to leave the folded edge uncut.

3

Trace the cactus arms on the leftover edge of your green cardstock. Then trace the sand section on your tan cardstock. Cut out each of the pieces.

4

Glue the cactus card onto the sand. Then glue each of the arms on the cactus.

5

Glue two googly eyes on your cactus card. Use your markers to draw a smile on your cactus and add texture lines and spines.

6

Decorate your cactus with small pom-poms for cactus flowers.

CACTUS CARD

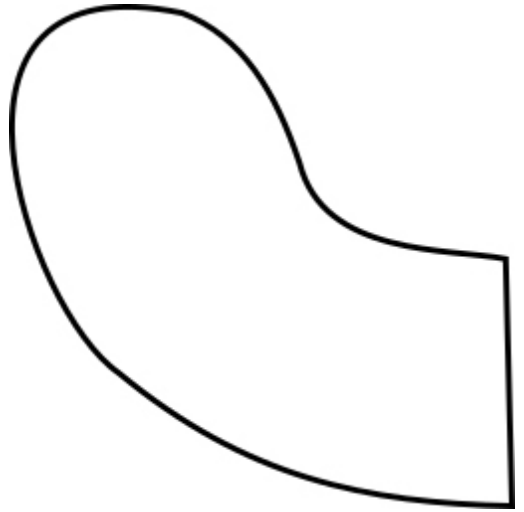

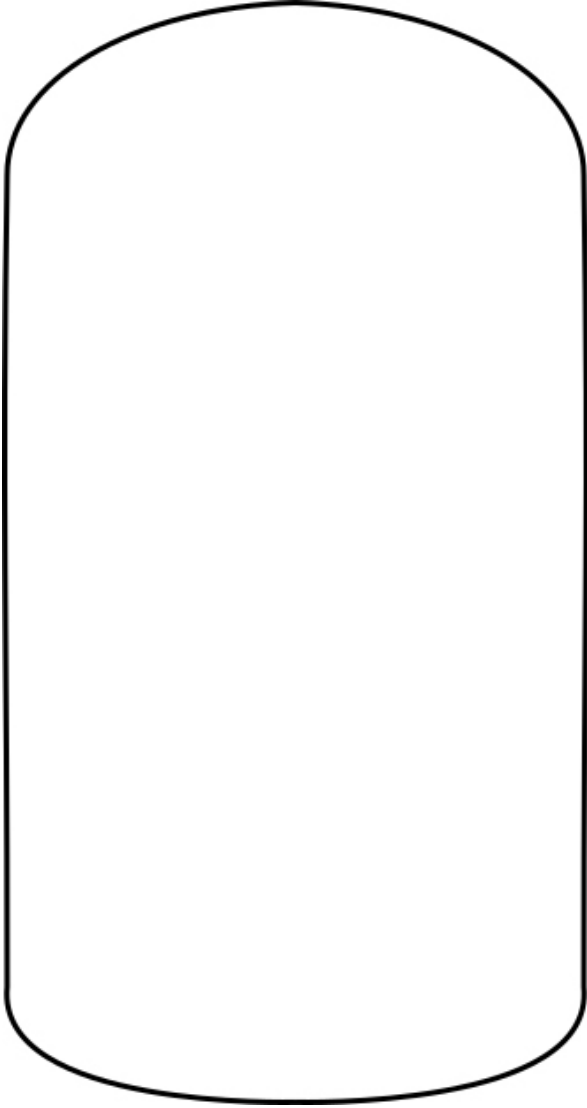

FUN FACTS ABOUT A CACTUS

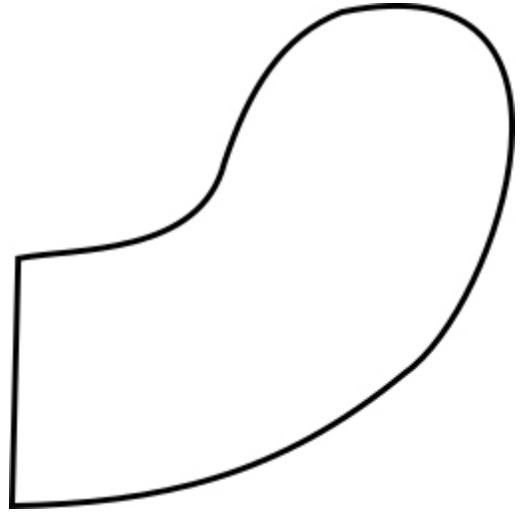

Did you know there are around 2000 different species of cactus? Some cacti can grow up to 45 feet tall while some are only a few inches. Cacti can be green, bluish, or brown-green in color. Unlike most plants, cacti have spines instead of leaves. One role of the spines is to protect the cactus from animals, so watch out and don't touch!
