

If they don't know they CAN'T go!

People are **twice as likely** to participate if a health professional discusses cardiac rehabilitation before they leave hospital

Provide patients with written information about cardiac rehabilitation and encourage them to visit www.heartfoundation.org.au/recovery-and-support/cardiac-rehabilitation.

Many can benefit:

- ✓ After a heart attack
- ✓ Following a heart surgical procedure
- ✓ People with heart failure

Almost **2 in 3** heart attack patients "miss out" on being advised to attend cardiac rehabilitation⁵

Benefits to patients

During cardiac rehabilitation patients will be supported to improve health related behaviours that will see:

- ✓ Improved knowledge and confidence
- ✓ Support to improve heart health e.g. healthy eating patterns and regular exercise
- ✓ Improved self-management of heart condition
- ✓ Reduced anxiety/depression
- ✓ Improved quality of life
- ✓ Support for psycho-physical recovery

Low cost & saves lives

Economic impact

Modelling has shown that increasing referrals to 65% over 10 years could result in **\$86.7m** savings in healthcare costs²

Reduced interventional costs

Angiogram + Stent = **\$16,000** per patient³
Coronary Artery Graft = **\$38,000** per patient³
Surgery

Other benefits

2100 fewer myocardial infarctions⁴
34% reduction in hospital readmissions²
26% mortality reduction²

Offer choice

Flexible services will increase participation

- ✓ At a hospital
- ✓ At a community centre
- ✓ Home-based services
- ✓ Mobile and internet-based services
- ✓ Telephone services
- ✓ Access to A Pathway to Cardiac Recovery: Standardised program content for Phase II Cardiac Rehabilitation

Shorter waiting times improve patient benefits.⁵

Quality services

Quality service delivery starts within 28 days after leaving hospital and includes:

- ✓ Assessment and goal setting
- ✓ Depression screening
- ✓ Smoking cessation education
- ✓ Medication education and review
- ✓ Ongoing management plan
- ✓ Risk factor management
- ✓ Structured supervised exercise
- ✓ Psychosocial wellbeing
