

# A10. Resource planning

## Module 4.3 - Maximising your resources

Resources aren't just about money. Many great projects succeed because of the people, skills, spaces, and support already in the community.

Use this sheet to map what you already have and what you might still need to bring your project to life.

### Tips

- Think about the people in your network
- Consider spaces and equipment
- Don't forget that knowledge and skills are valuable assets

### Resource bank

<b>Existing skills</b> What are the skills of the project team?	<b>Required skills</b> What do we need to learn?	<b>On-site assets</b> What's already on site?
<b>Materials we have</b> What materials do we already have?	<b>Materials we need</b> What materials do we need?	<b>Partners</b> Who could partner with us?
