Forbes Names Physicians Mutual One of America's Best Insurance Companies for 2025

OMAHA, Neb. (November 6, 2024) – [Physicians Mutual](#) is one of America's Best Insurance Companies, says [Forbes](#). For a third consecutive year, Physicians Mutual is recognized by Forbes as part of its independent survey in partnership with Statistica, a leading provider of industry rankings and statistics. Physicians Mutual is recognized as the top performer in Permanent Life Insurance and Term Life Insurance.

"As a mutual company, Physicians Mutual is owned by our policyholders," said Rob Reed, Physicians Mutual President and CEO. "Our decision making is always with them in mind—to provide peace of mind and the best value insurance products. We are proud of this continued recognition by Forbes for our commitment and service to our customers."

[America's Best Insurance Companies 2025](#) is based on an independent survey of more than 18,000 consumers from across the country. Participants evaluated the insurance companies they have held within the last three years across six areas: Advice, Customer Service, Price/Performance, Transparency, Digital Services, and Damage/Benefit Service.

Survey participants additionally rated their overall satisfaction, loyalty and likelihood to recommend their insurance providers to others. The insights were then converted into score values and aggregated towards a final score across five insurance categories: Auto, Homeowners, Renters, Permanent Life, and Term Life Insurance.

As with all Forbes lists, companies paid no fees to participate or be selected.

The Physicians Mutual family includes Physicians Mutual, Physicians Life and Physicians Select Insurance Companies. The family of companies provide health, life and retirement products, including Medicare Supplement, dental, life and supplemental health insurance, coverage for funeral pre-planning along with pet insurance for dogs and cats.
