

Physicians Mutual Named a 2026 Forbes Best Insurance Company

OMAHA, Neb. (October 23, 2025) – For the fourth consecutive year, [Forbes](#) has named [Physicians Mutual](#) as one of the best insurance companies in the nation. The company is recognized as an America's Best Insurance Company for 2026 by Forbes as part of its independent survey in partnership with Statistica, a leading provider of industry rankings and statistics.

"Many insurers are delivering customized coverage that meets policyholders where they are, whether that's via a mobile app, an online claims portal or a supportive phone call with a representative who can help clients navigate a loss," says Forbes. "To help customers identify these top insurance providers, Forbes has ranked America's Best Insurance Companies."

"Physicians Mutual has long lead with our vision of empowering people from all walks of life to enjoy the financial security they deserve," said Rob Reed, Physicians Mutual President and CEO. "We're honored by this recognition by Forbes, knowing that we are delivering peace of mind with our products and a high satisfaction in serving our customers."

America's Best Insurance Companies 2026 is based on an independent survey of more than 18,000 consumers from across the country. Participants evaluated the insurance companies they have held within the last three years across six areas: Advice, Customer Service, Price/Performance, Transparency, Digital Services, and Damage/Benefit Service.

The survey considered customers' overall recommendation of the company, their satisfaction and their loyalty. The insights were then converted into score values and aggregated towards a final score across five insurance categories: Auto, Homeowners, Renters, Permanent Life, and Term Life Insurance. As with all Forbes lists, companies paid no fees to participate or be selected.

The Physicians Mutual family includes Physicians Mutual, Physicians Life and Physicians Select Insurance Companies. The family of companies provide health, life and retirement products, including Medicare Supplement, dental, life and supplemental health insurance, coverage for funeral pre-planning along with pet insurance for dogs and cats.
