

Pumpkin

CARVING STENCILS

DIRECTIONS:

1. Clean out the pumpkin, scraping the flesh thinnest in the region in which you'll carve the design.
2. Attach the pattern to the pumpkin with tape.
3. Use a pin to make closely spaced pin pricks along the stencil lines, piercing the paper.
4. Use thin craft, linoleum, or wood-cutting knives to carve the pattern. Cut completely through black shapes. Shave skin of pumpkin on gray areas.

TIP:

Use clay carving tools to shave the skin on the pumpkin instead of cutting through. When lit, it will have a special glow.
