Ecosystem Integration

Market-Leading IT Infrastructure Protection

Endpoint and Server Security

Broadest threat protection to defend the endpoint at every stage

Cloud App Security

Advanced threat and data protection for cloud apps, including Microsoft 365, Google Workspace, and others

Email Security

Stop phishing, malware, ransomware, fraud, and targeted attacks

Web Security

Protect from internet threats, gain control over cloud app usage

Network Security

Protection purpose-built for the network, from the cloud to the data center to the factory floor

Supporting Zero Trust Architectures

Enable flexibility and mobility within the workforce

Decrease cyber attack-related downtime and improve overall security posture

Minimize reliance on outdated VPN technology

Integrate Zero Trust Network Access, Secure Web Gateway, & Cloud Access Security Broker

Meet regulatory requirements and align to Zero Trust principles by default

Recognized by Gartner

Highest Market Share in IDPS

Based on sum of vendor revenue (\$) for 2Q23*

Chart created by Trend Micro based on Gartner research. Calculations performed by Trend Micro.

*Gartner Market Share: Enterprise Network Equipment by Market Segment, Worldwide, 2Q23.

Gartner does not endorse any vendor, product or service depicted in its research publications, and does not advise technology users to select only those vendors with the highest ratings or other designation. Gartner research publications consist of the opinions of Gartner's research organization and should not be construed as statements of fact.
