

USOPC SPORTS MEDICINE

# Athletic Training Fellowship

## Overview

*The USOPC Sports Medicine Athletic Training (AT) Fellowship is an opportunity for athletic trainers looking to advance their personal and professional growth in sports medicine through a 12-month immersive experience with Team USA. This fellowship is designed to prepare participants for employment in elite-level athletics through a robust curriculum focused on the medical care of Olympic and Paralympic athletes complimented by high-yield, practical experiences.*

*The AT fellow will receive one-on-one mentorship from a multi-disciplinary team within USOPC Sports Medicine, provide training and event coverage alongside experienced medical providers, participate in research opportunities based on interest and clinic need, and more.*

## Eligibility:

1. Master's degree in athletic training
2. Two (2) years of clinical experience with minimum 1 year of clinical experience in sports medicine after licensure
3. Current Health Care Provider CPR (further emergency medical training preferred)
4. Manual therapy experience

## Application Materials:

- Cover letter
- Resume or CV
- Three letters of recommendation (at least two from clinicians in the sports medicine field)

## Fellowship Website:

**Application deadline:**  
**April 30, 2026**
