1 Introduction

Big Piggy Bank is a 5x3, 10 win line slot game featuring Fortune Spins, Bonus Buy, Free Spins and Spin Chance.

2 How to Play

Spin the reels by pressing the 'SPIN' button to try to achieve 2, 3, 4 or 5 of a kind reel wins.

Select the 'CHANGE STAKE' button to increase or decrease the size of the bet.

2.1 Autoplay

Press the 'AUTOPLAY' button to see the options. You must select the number of autoplay games, and your loss limit, before you have the option of starting the autoplay.

'Custom Loss Limit' refers to how much money you wish to lose before the auto play stops. For example, if you have £50 in your balance, and you choose a £20 loss limit, the auto play will stop as soon as your balance goes below £30, even if you have auto play games remaining.

You can either choose to accept the suggested loss limit, which is your stake multiplied by the number of autoplay games you have selected, or manually type in a loss limit by pressing the 'Custom Loss Limit' button.

Choose the 'More settings' option if you wish to stop the autoplay when you win over a certain amount.

Select the 'AUTOPLAY' button during autoplay to stop them.

2.2 Turbo Mode

Enabling 'Turbo Mode' increases the speed of a game by speeding up the reel spin animation. This does not impact the outcome of the game.

3 Game Rules

All games are played with 10 win lines.

Wins can occur across any or all of the win lines.

Only the highest award is paid per winning combination.

All wins pay left to right on adjacent reels starting with the leftmost reel.

Wins on different played lines are added.

Your winnings will be credited to your account immediately.
You will lose your bet amount if you lose the game.

The wild symbol substitutes for all symbols except the Collect symbol, the Bonus symbol and the Cash symbol.

The wild symbol appears on reels 2, 3 and 4 in the base game and in the Golden Bank Free Spins Bonus.

4 Bonus

These values are only awarded by landing the Collect symbol or Bonus symbol.

The available Cash symbol values are: x1, x2, x5, x10, x20, x30, x50 and x100.

4.4 Golden Bank Free Spins Bonus

Extra Spin symbols appear on reels 1, 2, 3 and 4 during the Golden Bank Free Spins Bonus.

Landing an Extra Spin symbol anywhere in view awards an additional Free Spin.

Jackpot Tokens appear on reels 1, 2, 3 and 4 during the Golden Bank Free Spins Bonus. Jackpot Tokens will appear as Mini, Minor, Major or Grand.

Collecting 3 Mini tokens awards the Mini Jackpot

Collecting 4 Minor tokens awards the Minor Jackpot

Collecting 5 Major tokens awards the Major Jackpot

Collecting 6 Grand tokens awards the Grand Jackpot

After a Jackpot is awarded, the Jackpot Matrix will empty. Jackpots can be awarded multiple times per Bonus.

4.5 Gamble

The gamble can be configured to be on, on if the win is greater than or equal to 5x stake, or off. If the gamble is on, any winnings awarded during the game will offer the gamble feature. If the gamble is on if the win is greater than or equal to 5x stake, any winnings greater than or equal to 5x stake awarded during the game will offer the gamble feature. The gamble entry trigger is based on the base stake before any stake multipliers are applied.

When the gamble is entered, two wheels are presented.

The left wheel offers the chance to increase the winnings by one third, double the winnings, or triple the winnings. The win value can be adjusted by pressing the '-' and '+' arrows, this in turn will adjust the winning and losing segments of the wheel.

The right wheel offers the chance to win Golden Bank Free Spins. The number of Free Spins awarded can be adjusted by pressing the '-' and '+' arrows, this in turn will adjust the winning and losing segments of the wheel.

Press either 'Gamble' button during the feature to gamble your winnings and spin the pointer.

If the pointer stops on the green segment, the cash value or Golden Bank Free Spins are awarded. If the pointer stops on the red segment, the player loses their winnings and exits to the base game.

Press the 'Collect' button during the feature to collect your winnings.

4.6 Spin Chance

Spin Chance is triggered automatically if the credit is reduced below the current price of play, yet is still greater than zero.

Spin Chance offers the player an opportunity to wager their remaining credit in an attempt at winning an additional spin at the current bet.

To play Spin Chance, select the 'PLAY' button to begin moving the pointer across the meter. Alternatively, select the 'NO THANKS' button to exit Spin Chance with the remaining credit.

If the pointer stops on the green segment, a spin at the current bet is awarded and plays automatically.

If the pointer stops on the red segment, the player loses any remaining credit and exits to the base game.

The red and green segments are proportional to the amount of credit in relation to the current bet. The chance of winning a spin is determined by this ratio.

The spin button is used to play the selected Fortune Spins mode.

During Fortune Spins the standard reels are replaced with Fortune Spins reels containing only Cash, Blank, Collect and Bonus symbols.

Landing a Collect symbol collects all Cash symbols in view.

4.8 Bonus Buy

The Bonus Buy mode can be activated by pressing the Bonus Buy button.

Bonus Buy allows the player to purchase direct entry into the Golden Bank Free Spins Bonus.

Buying the Bonus will force in at least 4 Cash symbols and a Bonus symbol.

Bonus Buy is purchased for 60 times the standard game stake.

Feature awards are determined by the current stake.

The average payback over multiple game cycles in the Bonus Buy mode is 94.50%
