WHAT OUR CLIENTS SAY:

"Simply a great synergy, LodeStar came to us with their product a few years ago and made their product fit into our business model with custom configuration based on how we work. We never have to worry about response times – they are always quick to respond and adjust our configuration as we need. The team at LodeStar keep their customers in mind while innovating services and make us feel as though they are keeping us specifically in mind."

TAYLOR MORRISON HOME FUNDING, LLC.

"Lodestar is impressive! They are open to new ideas and have shown a "Yes we can" attitude! They are helpful, able to pivot, quick to respond, and have been a joy to work with - GREAT team!"

NOVA FINANCIAL & INVESTMENT CORP.

"Our company has enjoyed working with LodeStar! During initial implementation they were thorough and detailed. In our continuing partnership they have been swift to respond to potential issues and additions with great customer service. We look forward to continuing to partner with them."

TRUSTONE FINANCIAL CREDIT UNION

"Integration is great! We have had some issues, but LodeStar is always willing to work with us to fix our setup. This is one thing that we do love because some of the other vendors don't quite customize like LS does. Our account managers are also very responsive and are always willing to help."
