

Reasons Encompass Users Love Triserv

✔ **Trusted Partners.**

Triserv has been at the highest level (PDSK) of integration with Encompass for many years. We were selected by ICE Mortgage Technology to be one of the first AMCs in the country to integrate with their newly upgraded platform.

✔ **Use Your Favorite Platform.**

We are integrated with most third-party technology platforms, including Mercury, Reggora, ClosingCorp, Connexions, and more. Continue to use your favorite platform within Encompass.

✔ **Technical Support.**

Our in-house IT team speaks your language and can help customize and troubleshoot your Encompass integration with Triserv.

✔ **Access Anytime, Anywhere.**

The new Encompass platform is web-based, so you can use it from any computer or mobile device that has Internet access.

✔ **Customizable Fields.**

Now you can control what gets imported from our appraisal reports into your Encompass account.

✔ **Appraisal Reports Automatically Delivered.**

No more having to remember to click "Get Updates" - now appraisal reports and other files will automatically be delivered to Encompass.

"Triserv is a breath of fresh air. My team and I immediately saw a change and a clear-cut winner - Triserv stood apart from the AMCs we used before. We send 98% of our appraisals to Triserv - we keep the others open in case of emergency. We can trust that Triserv will use our panel of preferred appraisers. We get more than we could ever imagine from Triserv."

- VP of Mortgage Lending, FCU, Virginia
