

LENDERLOGIX

Create Amazing Borrower Experiences

Mortgage Automation for Innovative IMBs, Banks & Credit Unions

Improve lead flow, streamline operations, and elevate the digital experience for homebuyers and real estate partners with best-in-class mortgage technology designed by and for modern lenders.

With each product fully integrated with Encompass®, getting started is simple, and the user experience is seamless. Backed by a dedicated account manager and around-the-clock support team, we help you ensure adoption and keep your total cost of ownership low. Let us do the heavy lifting for you and your team.

Digital mortgage tailored to your lending process.

- LiteSpeed Point-of-Sale
- QuickQual Adjustable Pre-Approval Letters
- Fee Chaser Upfront Fee Collection
- Milestone SMS Updates
- Digital Business Cards
- Customized Closing Gifts

Create a high-touch user experience that drives conversion rates and optimizes your time spent.

LiteSpeed is a beautiful front-end solution focused on speed-to-lead and increased applications. It is strategically designed to provide homebuyers with a simple yet amazing user experience as they begin their home search. Within 90 seconds, borrowers give the essential information needed to trigger a new loan within Encompass. Lead capture made easy.

QuickQual is the new way to create, manage and share pre-qual and pre-approval letters. So long as borrowers and Realtors stay within the parameters set by their loan officer, they can run their own payment and closing cost scenarios and update letters as needed. Deliver on-demand, high-touch, and hyper-personalized product comparisons and financial insights because confident buyers win bids.

Fee Chaser allows you to request upfront fees via email and SMS with the click of a button. Using a unique payment link (secured by tokenization & backed by one of the country's leading payment gateways), homebuyers can quickly and easily pay on their device! No one holds onto the financial data, everyone receives a receipt, and 94% of borrowers pay within 24 hours. The earlier they invest, the more likely they are to finance with you. Hook them early and ditch absorbing or delaying these fees. We don't have to tell you that they add up!
