

# Simplified Full Circle Solutions Made Easy with Encompass

## Services Include:

## One Login, One Location, One Solution

### Partners Credit & Verification Solutions

is leading the way to improve the mortgage origination process. By determining borrower worthiness and facilitating the lending process with our full suite of verifications, we deliver the best possible solutions with ease from credit pull to closing. Working to automate solutions is what makes us a trusted provider, all from within Encompass®!

Meeting our customer's customization needs is a mark we never miss with our tailored technology.

We know your time is important, and with Encompass we streamline and bundle services to save you time and money. With verification tools, credit reporting, and single vendor use, we deliver solutions for a faultless workflow and smoother closings.

To tie it all together, we're introducing our latest addition: ARC. ARC brings Encompass solutions full circle with appraisals for quality reporting done right!
