

Spring Cup 2026

Week 1 Results

Select results have been filtered out to ensure race integrity. If your result is missing, you are welcome to attempt the race again. Please make sure you are 1) wearing a heart rate monitor or smart watch that is broadcasting heart rate to your iFIT equipment during the entirety of the race, and 2) maintaining course-specified incline/decline for the entirety of the race. Excessive decline, specifically on bikes, provides unrealistic performance and is subject to removal.

If your result is in the incorrect category (age or gender), please update your information at ifit.com/settings.
