SAFETY INFORMATION

- Follow workshop health & safety rules, regulations and conditions when using the worklight.
- When not in use, worklight should be stored in a dry location to inhibit rust.
- During their period of use, accessories must be checked for wear, cracks and other damage, replace any damaged or worn parts.
- Use genuine parts only. Unauthorized parts may be dangerous and will void the warranty.
- Keep the worklight clean and in good working order for best and safest performance.
- DO NOT use the lamp in the immediate vicinity of inflammable materials or gases.
- DO NOT point the light directly in your own or any other person's or animal's eyes.
- DO NOT drop, throw or abuse the worklight.
- **Eyes protection:** Wear a protective mask or protective eyewear.
- Check that the product has not suffered any damage during transport or storage. Clean and remove any dust or residual packing material.
- Read the instructions carefully before using worklight and keep them for further reference.

WARNING!

- DO NOT immerse the worklight in water.
- DO NOT place the worklight near a fire or any other source of intense heat.
- DO NOT attempt to open, disassemble, modify or service the worklight.
- DO NOT expose the worklight to temperatures above 40°C (104° F).
- DO NOT use the worklight if you suspect that the batteries or the casing is damaged

OPERATING INSTRUCTIONS

LED Display at back shows charge levels in percentage of battery remaining in the worklight along with real time lumen output.

1. Fully charge the battery before the first use. To charge, connect the worklight with Type C USB charger cable provided with it.
2. While charging, the battery icon will blink continuously on the LED screen.
3. When the battery is fully charged, the battery icon will show 100%. Full charging takes about 2 hours.
4. Press the power button located at the back of the light
   - Once for top torch "ON"
   - Twice for worklight "ON"
   - Three times for continuous red light "ON"
   - Four times for red SOS flashing "ON"
   - Five times for switching "OFF" the light
5. Intensity of all four modes of light can be controlled pressing the increase (+) or decrease (–) buttons at the back of the worklight.
6. For bluetooth connection of worklight to phone, press and hold the power button for switching on the Bluetooth of the worklight and connect to "**BT500**" from your phone.
7. Built-in Mic is provided in the worklight for taking calls while working.

8. The worklight can also be used as power bank for charging mobile devices.

MAINTENANCE

- Clean any dirt from the housing or the lens immediately, since it could cause overheating.
- If required, clean with a dry and clean cloth. Do not use cleaners that contain abrasives or solvents.
- When not in use, worklight should be stored in a dry location.

TROUBLESHOOTING

PROBLEM	POSSIBLE CAUSE	CORRECTIVE ACTION
Worklight does not work	Low battery	Recharge the battery
The Bluetooth speaker does not work	Bluetooth out of range	Worklight and the phone should be within 10 meter (33ft) range
If the COB Rechargeable worklight with bluetooth speaker still doesn't work		Contact nearest authorized service dealer

DISPOSAL

The components or the used products must be given to companies that specialize in the disposal and recycling of industrial waste.
