

TSS5A

Made in U.S.A.

Part No: **TSS5A** 5 pc. 1/2" dr. Twist Socket Set w/punch

Twist Sockets are designed to easily remove rounded, damaged or corroded **Wheel Lugs**.

Size	Part#
3/4", 19mm socket	TS24
13/16" socket	TS26
7/8" socket	TS28
15/16" socket	TS30
1" socket	TS32
punch	VP400-80

1. To remove damaged fastener, place **Twist Socket** on lug so it just catches a portion of head (*Do not place socket on so it completely covers wheel lug. Allow room for **Twist Socket** to draw itself onto lug.*)
2. Turn counter-clockwise with a 1/2" impact, breaker bar, ratchet or related tool. (**DO NOT** pound socket onto damaged wheel lug.)
