MATCO TOOLS

TSSLP10C

Made in U.S.A.

Part No: TSSLP10C

10 pc. Low profile Twist Socket Set

TwistSockets are designed to easily grabs and removes rounded, rusted, painted over and rounded off nuts and bolts, pipe nipples or studs.

Removers can easily be turned a ratchet/socket, adjustable wrench or combination wrench. Slim design allows removers to fit over longer studs and bolts.

Choose the Twist Socket that corresponds to the nut or bolt to be removed. Works on both standard and metric fasteners.

Instructions:

To remove damaged fastener, place TwistSocket on fastener so it just catches a portion of head. (Do not place socket on so it completely covers fastener. Allow room for TwistSocket to draw itself on).

Size	*Part#*	*Size*	*Part#*
