

AI + Network Control

Visibility, Risk Prioritization, and Automation in the Age of Agentic NetOps

Speakers

Matt Bromiley
SANS
Certified
Instructor

Avishai Wool
AlgoSec
CTO

**Do you know which AI
providers are being used in
your network right now?**

***Do you know which
applications are AI-based?***

Do you have policy in place for governing which AI providers are acceptable?

- **Contractual considerations**
- **Zero data retention (ZDR)**
- **Country of origin**
- **Local open weights vs public proprietary systems**

**If the agent is wrong,
what is the impact?**

How do you control it?

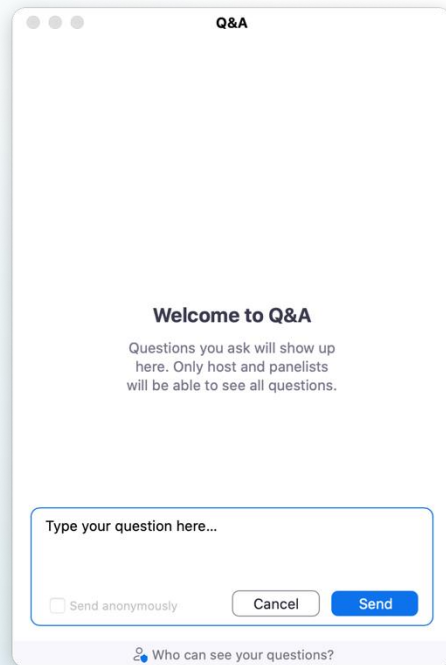

You run 83 security tools.

***Which one reasons about
policy for the agent?***

Q&A

Use **Zoom's** Q&A window to submit questions to our presenters.

Type your question, tell us if it's for a specific presenter, and then click Send.

A screenshot of the Zoom Q&A interface. At the top, it says "Q&A". Below that, a "Welcome to Q&A" message states: "Questions you ask will show up here. Only host and panelists will be able to see all questions." There is a text input field with the placeholder "Type your question here...". Below the input field, there is a checkbox labeled "Send anonymously" and two buttons: "Cancel" and "Send". At the bottom, there is a link icon and the text "Who can see your questions?".

Q&A

Welcome to Q&A

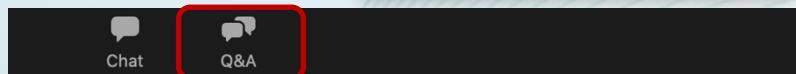

Questions you ask will show up here. Only host and panelists will be able to see all questions.
