## How CISOs and Security Leaders Are Turning Directives into Action

Discover how today's top CISOs and security team leads are building strategic action plans to meet both current and upcoming cybersecurity directives.

Learn how organizations are:

- Developing and refining cyber incident response plans
- Embedding security best practices into daily operations
- Ensuring teams have the right skills to meet compliance demands
- Identifying key areas of focus for regulatory reporting
- Effectively engaging with the Board and C-suite on cybersecurity strategy

Walk away with real-world insights and practical solutions from leading organizations already navigating these directives—so you can stay compliant
