Photography Notice

SANS may take photos of classroom activities for marketing purposes. SANS October Singapore 2025 attendees grant SANS all rights for such use without compensation, unless prohibited by law.

Feedback Forms and Course Evaluations

SANS is committed to offering the best information security training, and that means continuous course improvement. Your student feedback is a critical input to our course development and improvement efforts. Please take a moment to complete the electronic evaluation posted in your class Slack channel each day.

Your Identification Badge

To confirm you are in the right place, SANS Work-Study participants will be checking your badge for each course and event you enter. For your convenience, please wear your badge at all times.

Safety and Comfort at the Event

You may wish to bring a jacket or jumper in case you need it in the climate-controlled classrooms. Some students may wish to bring a second monitor or other peripherals and though these are generally not necessary, provision has been made to allow for these BYO items in the classroom. A limited number of standing-height tables will be provided in each room for students who wish to alter their working position throughout the day.
