1. Introduction and Purpose.

1.1 Background and Purpose.

League of Legends Championship Series LLC, a Delaware limited liability company (“**MSI Entity**”), along with its affiliates (collectively, “**Riot**”) has established these Rules for the competitive play of LoL in order to unify and standardize the rules used in the 2024 MSI.

1.2 Purpose.

These Rules are designed solely to ensure the integrity of the system established by the MSI officials for professional play of LoL and a competitive balance among the teams that play at the professional level. Standardized rules benefit all parties who are involved in the professional play of LoL, including the teams, players and general managers.

1.3 Acknowledgement and Acceptance

The acknowledgement of the Competition Ruleset, and an agreement to be bound by and comply with their terms, is an essential term of each Team Tournament Participation Agreement. This Competition Ruleset is the “Official Competition Ruleset” referenced in each Team Participation Agreement and forms part of the broader set of rules and policies described in those agreements (“**Rules**”). The MSI Entity may issue interpretations, guidance and other policy documents (each, a “**Guidance Document**”) from time to time in order to explain, clarify, supplement or provide informal guidance on the provisions of the Policies, the Competition Ruleset and the other Rules. All such Guidance Documents shall be deemed to be incorporated into, and form part of, the Competition Ruleset upon their release to the Teams. The initial Guidance Documents are attached as Exhibits to the Competition Ruleset and incorporated herein.

1.4 Application of the Competition Ruleset

Each Team Entity acknowledges and agrees that a breach of, or failure to comply with, the Competition Ruleset or any Guidance Document by (a) any person or entity who, directly or indirectly through any intermediate corporations or other entities, owns securities, equity interests or other ownership interests in the Team Entity or the Team Marks (“Owner”) shall be deemed a breach of, or failure to comply with, the Competition Ruleset or any Guidance Document by the Team Entity; and (b) any player, coach, administrator, analyst, contractor, consultant, employee, staff member or other person retained by the Team Entity or Owners who from time to time perform the Team Entity’s obligations or exercise the Team Entity’s rights under the Team Participation Agreement (the foregoing collectively, “**Team Personnel**”) shall be deemed a breach of, or failure to

comply with, the Competition Ruleset or any Guidance Document by the Team Entity, in each instance even in cases where the Team Entity was not, itself, at fault. This Competition Ruleset applies only to official MSI play and not to other competitions, tournaments or organized play of League of Legends as administered by employees, contractors or agents of the League (“**MSI Officials**”).

1.5 Disciplinary Action

The MSI Entity shall be entitled to undertake such disciplinary procedures as it determines in relation to any breach of, or failure to comply with, this Competition Ruleset by the Team Entity, any Owners or Team Personnel and to impose such fines, suspensions, disqualifications and other disciplinary actions (or combinations thereof) as the MSI Entity determines in its sole discretion (collectively, “**Disciplinary Actions**”); and such Disciplinary Actions (i) may be publicly disclosed by the MSI Entity as determined in its sole discretion, and (ii) are reasonable and necessary in order to maintain the competitive integrity of the MSI or the goodwill associated with the Game, the MSI, and Riot.

2. Event Eligibility

2.1. Team Member Eligibility

Additionally, at the request of a player, the MSI Entity will provide the following categories of equipment for use: (1) PC Keyboards, (2) PC Mice, and (3) Mouse Pads.

All equipment provided by the MSI will be chosen, selected and determined at the sole discretion of the MSI. Subject to the foregoing, the unauthorized modification of MSI-provided equipment or the use of hardware, software or other equipment that is not provided or approved by MSI will be deemed cheating. Players must return all MSI-provided equipment to MSI Officials when the event is over or upon request by MSI Officials. MSI Equipment may be adorned with logos or marks from Event Sponsors. Players may not cover, obscure, or otherwise obfuscate these logos or marks.

- 4.1.2. Player and Team Provided Equipment.** Players are allowed to bring equipment in the following categories, which are owned by themselves or their teams, into the match area and use such equipment during official MSI matches: (1) PC Keyboards, (2) PC Mice and Mouse Cord Holders, (3) Mouse Pads. This equipment may not feature or display any name, likeness, logo or other intellectual properties of a company or brand which is a competitor of Riot Games or LoL. The equipment shall also not be used without the copyright owner's consent, or that may give rise to, or subject MSI or its affiliates to, any claim of infringement, misappropriation, or other form of unfair competition. Players may not bring any other equipment into the match area, including but not limited to, headsets, microphones, earbuds, cellular phones, flash drives, or mp3 players.

- 4.1.3. Replacement of Equipment.** If equipment or technical problems are suspected, a player or MSI Official may request a technical review of the situation. A technician designated by a MSI Official will diagnose and troubleshoot the suspected issues. Technicians may request that MSI Officials allow replacements of any equipment at the applicable

technician's discretion. If a player wishes to use player/team provided equipment as a replacement, they must have said equipment available at the venue for immediate use. If they do not have this equipment available, they will be required to use the MSI provided equipment, as outlined above. Decisions regarding the replacement of any equipment are solely at the discretion of the MSI.

4.1.4. Peripheral Policy. All player- and team-provided equipment which players wish to use during the event must be submitted to MSI officials in advance of the event. The MSI will maintain possession of these peripherals throughout the event, and will return them following a team's elimination or for travel between venues. Teams will be responsible for transporting equipment from venue to venue, and must re-submit all peripherals prior to the start of any stage of play. MSI Officials will be responsible for storage (and charging, if necessary) of team peripherals. Teams or players who take this equipment out of the match area will be subject to penalties, unless directed by MSI Officials. For clarity, if a player wishes to have matching equipment in their practice areas and on stage, they must bring two sets of said equipment.

4.1.5. Unapproved Equipment. Unapproved equipment or equipment that is suspected by the MSI officials of providing an unfair competitive advantage will not be permitted for use. Usage of unapproved equipment during the competition will be considered cheating. If the Player's equipment is designated as unapproved, then the Player will be required to use MSI-provided equipment instead. Additionally, at their sole discretion, MSI officials may disallow the use of any individual piece of equipment for reasons relating to tournament security, safety, or operational efficiency or effectiveness.

4.2. Computer Programs and Usage

Team Members are strictly prohibited from installing their own programs on any MSI provided computers, including those in the warm-up and practice areas. If a team member wishes to install a program onto any computer, they must first receive approval from a MSI official. Usage of unapproved computer programs will be considered cheating.

4.2.1. Voice Chat. Voice chat will be provided only via the native system used in the MSI-provided headsets. Use of third-party voice chat software (e.g.,

Discord) is not permitted. MSI officials may monitor a team's audio at the discretion of the MSI.

- 4.2.5. Native Programs.** Players may use the native programs MS Paint and Notepad before and after Matches. Players may not use the native programs MS Paint and Notepad during a Match, and must close out of those programs before the start of the Match. MSI may prohibit players from accessing native programs in cases of abuse.
- 4.2.6. Pink Noise.** The MSI uses a "pink noise" style noise-cancellation system in its headsets to safeguard the integrity of the competition. Players will be required to maintain minimum "pink noise" levels in their headsets. MSI officials may bar players from adjusting their "pink noise" levels lower if the officials determine, at their sole discretion, that external noise sources would be too easily discernible. Additionally, MSI officials may, at their sole discretion, opt to disuse the "pink noise" system.
- 4.2.7. Additional Audio Restrictions.** Headphones must be placed directly on a player's ears, and must remain there for the duration of the game. The microphone attached to the headset must be close to the player's mouth and may be adjusted by MSI officials if it is determined to be out of position. Players are not permitted to obstruct the placement of headphones by any method or place any item, including hats, scarves or other articles of clothing, between the headphones and the player's ears, except for certain religious articles and/or medical devices (e.g., hijab, dastar, yarmulke and hearing devices). The determination of whether an item qualifies for the religious and/or medical exemption will be made by MSI Officials at their sole discretion.

- 4.2.8. Equipment Tampering.** Players may not touch or handle another teammate's owned or provided equipment after a match has started. Players who require assistance with their equipment should ask assistance from a MSI official.

The team logo and Summoner Name must be large enough to be easily visible on broadcast and distinguishable from sponsor logos and other elements on the jersey. All player uniforms must match.
- 4.3.3. Sponsor Logo Placement.** Sponsor logos are allowed to be placed on the team uniform. There are no restrictions regarding the number of sponsor logos and the logo placement area at the international events. Teams may choose how team and sponsor logos are distributed across the uniform. Teams, however, should refrain from creating the impression that a sponsor is the team's naming sponsor if this is not the case.
- 4.3.4. Objectionable Material.** Some material is considered objectionable, and may not be displayed on Team Uniforms. This includes:
- 4.3.4.1.** Any false, unsubstantiated, or unwarranted claims for any product or service, or testimonials, that MSI, in its sole and absolute discretion, considers unethical.
 - 4.3.4.2.** Any material that is defamatory, obscene, profane, vulgar, repulsive or offensive, or that describes or depicts any internal bodily

functions or symptomatic results of internal conditions, or refers to matters which are not considered socially acceptable topics.

4.3.4.3. Anything that is disparaging or libeling any opposing team or player or any other person, entity or product.

4.3.5. Copyrighted Material. Team Uniforms may not contain any trademark, copyrighted material or other element of intellectual property that is used without the owner's consent or that may give rise to, or subject MSI or its affiliates to, any claim of infringement, misappropriation, or other form of unfair competition.

4.3.6. Apparel Approval. All team uniforms must be approved, in writing, prior to the start of the MSI.

4.3.9. Identity. A player may not cover his or her face or attempt to conceal his or her identity from MSI officials. MSI officials must be able to distinguish the identity of each player at all times and may instruct players to remove any material that inhibits the identification of players or is a distraction to other players or MSI officials. For this reason, as well as those listed above in Section 4.2.7, hats are not allowed.

4.3.10. Regional Restrictions. Any additional regional restrictions from the region a team is representing on player uniforms will be enforced at the MSI.

4.4. Coach Apparel

4.4.1. Apparel Policy. Coaches must wear appropriate attire while at the event. The only time any Team Personnel may access the venue is when they are required to be present by MSI officials. Entrance to the venue is contingent on following the Event Safety Protocol.
- 5.1.2. Pre-Entry Health Inspection.** Each Team Personnel must verify their identity with MSI Officials prior to entering the venue for any reason. Additionally, MSI Officials will have the right (prior to allowing any Team Personnel or other person to enter the venue) to check such a person's health by taking their temperature or otherwise taking steps to confirm that they are physically healthy. If, at any time prior to or during a Match, MSI Officials determine that an individual is unhealthy and should not enter the venue, such individual will be denied entry and will be required to leave the venue immediately. If MSI Officials determine that a player is unhealthy and should not participate in a Match, MSI Officials may require the applicable Team to provide a substitute. If applicable law requires any additional or different health inspection, sanitation or public safety procedures, MSI Officials will have full authority to implement those procedures, and all players will cooperate with MSI Officials in the implementation of those procedures.

No electronic devices, including, but not limited to: mobile phones, tablets, and smart watches are allowed in the Match Area and the Team huddle rooms during a Match, including during the pick/ban phase, pauses, remakes, and between games of multi-game Matches. MSI Officials will collect such devices from all Team Personnel in the Match Area and Team huddle rooms, and return them after the end of the Match.

5.2.4. Notes and Notepads. Players are not permitted to bring any written or printed materials into the Match Area during a Match. The Head and Strategic Coaches are permitted to bring written or printed materials into the Match Area during a Match. The written or printed materials must remain with the Coach in the area designated for use by the Coach. Coaches are prohibited from using the written or printed materials to communicate or convey information to the players during a Match outside of the pick/ban phase, between games, and other time periods where communication between coaches and players is allowed.

- 6.2.1.4. 1st Qualifier from the VCS
- 6.2.1.5. 2nd Qualifier from the LCK
- 6.2.1.6. 2nd Qualifier from the LCS
- 6.2.1.7. 2nd Qualifier from the LEC
- 6.2.1.8. 2nd Qualifier from the LPL

6.2.2. Teams starting in the Bracket Stage:

- 6.2.2.1. 1st Qualifier from the LCK
- 6.2.2.2. 1st Qualifier from the LPL
- 6.2.2.3. 1st Qualifier from the LEC
- 6.2.2.4. 1st Qualifier from the LCS

6.3. Tournament Draws

6.3.1. Play-In Draw

6.3.1.1. Draw Pools. Teams have been split into four draw pools, based on their regions' previous international performance, for the purposes of the Play-In Stage.

- 6.3.1.1.1. Pool 1: LCK2, LPL2
- 6.3.1.1.2. Pool 2: LEC2, LCS2
- 6.3.1.1.3. Pool 3: PCS1, VCS1
- 6.3.1.1.4. Pool 4: CBLOL1, LLA1

6.3.1.2. Draw Procedure. These pools are split into two pairs - Pools 1&4 and Pools 2&3. Teams will be drawn into matches by random selection against an opponent from their paired pool (i.e., Pool 1 vs Pool 4, and Pool 2 vs Pool 3). The order of the draw will not determine the order in which the matches are played. Each Play-In Bracket will consist of one team from each Draw Pool.

6.3.2. Bracket Stage Draw

6.3.2.1. Draw Pools. Teams have been split into four draw pools, based on their regions' previous international performance, for the purposes of the Bracket Stage.

6.3.2.1.1. Pool 1: LCK1, LPL1

6.3.2.1.2. Pool 2: LCS1, LEC1

6.3.2.1.3. Pool 3: Play-In Bracket Winners

6.3.2.1.4. Pool 4: Play-In Bracket Runners Up

6.3.2.2. Draw Procedure. These pools are split into two pairs - Pools 1&4 and Pools 2&3. Teams will be drawn into matches by random selection against an opponent from their paired pool (i.e., Pool 1 vs Pool 4, and Pool 2 vs Pool 3). The order of the draw will not determine the order in which the matches are played. Each side of the bracket (top/bottom) will consist of one team from each Draw Pool.

6.3.2.3. Draw Restrictions. There will be no intra-regional matches in the first two Rounds of the Upper Bracket and the first Round of the Lower Bracket. In the case where a draw would result in intra-regional matches in Upper Bracket Round 1, Upper Bracket Round 2 or Lower Bracket Round 1, the drawn team will move to the next available slot (the opposite side of the bracket). Colloquially, this means that no teams from the same region can be on the same "side of the bracket" when drawing for Upper Bracket Round 1.

6.3.3. Tournament Draw Schedule

6.3.3.1. Play In Stage Draw: April 20th, 2024, after the LPL finals

6.3.3.2. Bracket Stage Draw: Immediately following completion of matches on May 5.

6.4. Tournament Play Schedule

6.4.1. Dates of Tournament Stages.

6.4.1.1. Play In Stage: May 1 - May 5

6.4.1.2. Bracket Stage - Quarterfinals: May 7th - May 19

6.4.2. Changes to Schedule. Match order, dates, and scheduling are at the sole discretion of the MSI. MSI officials may, at their sole discretion, re-order the schedule of matches within a given day and/or change the date of a MSI match to a different date or otherwise modify the schedule of matches. In the event that the MSI modifies a match schedule, the MSI will notify all teams at the earliest convenience.

6.5. Tournament Prizing

Prizing for the MSI will be comprised of a percentage share of a prize pool guaranteed by the tournament organizer to be at least \$250,000 USD, comprised of (i) a \$250,000 USD contribution by the tournament organizer; and (ii) a percentage of revenue share for the sale of certain designated digital goods associated with MSI (the "Prize Pool").

Placement	Percentage
1st (MSI Champion)	20%
2nd	16%
3rd	12%
4th	10%
5th / 6th	8%
7th / 8th	6%
9th / 10th	4%
11th / 12th	3%

7. Match Process

7.1. Arrival at Venue

Members of a Team's Active Roster who are participating in the MSI must arrive at the venue no later than the time specified by MSI Officials. Sanctions for tardiness may be assessed at the discretion of MSI Officials.

7.2. Role of MSI Officials

7.2.1. Competitive Operations Lead. The "Competitive Operations Lead" is a MSI Official who is responsible for judgments on all event-related issues that impact competitive integrity. The role of this person includes, but is not limited to:

7.2.2.2. Making the initial determination on all Match Operations Regulations

7.2.3. Head Referee. The "Head Referee" is a MSI Official who is responsible for pre- and post Match setup as well as the in-game lobby. Their oversight includes, but is not limited to:

7.2.3.4. Determining and Recording Games of Record.

7.2.3.5. Ordering pause/resume during play.

7.2.3.6. Informing Teams of sanctions and Disciplinary Action in response to rule violations during the Match.

7.2.3.7. Making Match-related determinations under this Competition Ruleset, including with regard to pauses and stoppages of play.

7.2.3.8. Confirming the end of the Match and its results.

7.2.4. Stage Referees. The “Stage Referees” are under the direction of the Match Operations Lead and the Head Referee. Responsibilities include but are not limited to:

7.2.4.1. Admitting or denying access to the Match Areas, if applicable.

7.2.4.2. Carrying out security protocols directed by the Head Referee and other MSI Officials, and/or in support of this Competition Ruleset.

7.2.5.1. Investigating breaches of any Riot esports regulations, including the Team Personnel behavior regulations (Section 9.).

7.2.5.2. Making the final determination on any disciplinary measures taken against Teams.

7.2.5.3. Upon request, explaining any disciplinary measures taken against Teams.

7.2.6. Referee Comportment. At all times, referees shall conduct themselves in a professional manner, and shall issue rulings in an impartial manner. No passion or prejudice will be shown towards any player, team, team manager, owner, or other individual.

7.2.7. Finality of Judgment.

All decisions regarding the interpretation of this Competition Ruleset, player eligibility, scheduling and staging of the event, and penalties for

misconduct, lie solely with the Competitive Operations Lead, the decisions of which are final. Competitive Operations Lead decisions with respect to this Competition Ruleset cannot be appealed and shall not give rise to any claim for monetary damages or any other legal or equitable remedy.

7.3. Competitive Patch.

The MSI will be played on the 14.8 patch. Changes to the competitive patch will be at the discretion of the MSI. Any champion, item, rune, skin, or exploit may be disabled at any point at the discretion of MSI officials, including during a match. A list of restricted champions, items, runes, and exploits will be provided to all teams before the event.

7.4. Pre-Match Setup

- 7.4.1. Player Accounts.** Players will be provided with accounts (“Tournament Realm Accounts”) for use in all official Matches of the MSI. Tournament Realm Accounts will be named using the official Team Tag followed by the player’s official tournament handle.
- 7.4.2. Seating Order.** Players must sit in the order specified by the referee onsite.
- 7.4.3. Setup Time.** Players will have designated blocks of time prior to their match time to ensure they are fully prepared. MSI officials will inform players and teams of their scheduled setup time and duration as part of their match schedule. MSI officials may change the schedule at any time. Setup time is considered to have begun once players enter the Match Area, at which point they are not allowed to leave without permission of the on-site MSI official or referee and accompaniment by another MSI official. Setup is comprised of the following:
 - 7.4.3.1.** Confirming Tournament Realm Account name accuracy
 - 7.4.3.2.** Ensuring the quality of all equipment.
 - 7.4.3.3.** Connecting and calibrating peripherals.
 - 7.4.3.4.** Ensuring proper function of voice chat system.
 - 7.4.3.5.** Setting up rune pages.
 - 7.4.3.6.** Adjusting in-game settings.
 - 7.4.3.7.** Limited in-game warm-up.

- 7.4.4. Technical Failure of Equipment.** If a player encounters any equipment problems during any phase of the setup process, the player notify a MSI official immediately.
- 7.4.5. Lighting Levels.** Players may request adjustments to the level of lighting being directed at the stage during the setup process. However, there will be a minimum level of stage lighting required by the MSI staff, and the lighting will not be lowered below this level.
- 7.4.6. Timeliness of Match Start.** It is expected that players will resolve any issues with the setup process within the allotted time and that match will begin at the scheduled time. Delays due to setup problems may be permitted, at the sole discretion of MSI officials. Penalties for tardiness may be assessed at the discretion of the MSI officials.
- 7.4.7. Player Ready State.** No fewer than two minutes before the match is scheduled to begin, a MSI official will confirm with each player that their setup is complete. Once all ten players in a match have confirmed completion of setup, players may not leave the match area or enter a warm-up game without permission from a MSI official.
- 7.4.8. Game Lobby Creation.** MSI officials will decide how the official game lobby will be created. Players will be directed by MSI officials to join a game lobby as soon as testing has been completed, in the following order of positions: Top, Jungle, Mid, ADC, Support.
- 7.4.9. Pre-Match Obligations.** Team Members will be informed of any pre-Match obligations, including, but not limited to, media appearances, interviews, or further discussion of any Match matters. Team Members are required to perform these pre-Match obligations.
- 7.4.10. Pre-Match Schedule.** All Teams are obligated to adhere to any pre-Match schedule provided to the teams by MSI Officials. The pre-Match schedule may include designated arrival and departure times from the Team's accommodations and the event venue. The pre-Match schedule may also include scheduled periods for pre-Match obligations, hair and makeup, setup time, and other pre-Match requirements. Sanctions for tardiness and/or failure to comply with the obligations set forth in the pre-Match schedule may be assessed at the discretion of MSI Officials

7.5. Game Setup

- 7.5.1. Start of Pick / Ban Process.** Once all ten players have reported to the official game lobby, a MSI official will request confirmation that both teams are ready for the pick/ban phase. Once both teams confirm readiness, a MSI official will instruct the room owner to start the game. The Head Coach and one Strategic Coach will be granted on-stage access and will be allowed to communicate with the team during the Pick/Ban Process. The coaches must exit the stage to a designated position once the countdown timer has reached 5 seconds during the Trading-Phase and will be muted once the timer has reached zero seconds.
- 7.5.2. Recording of Pick / Ban Process.** Picks/bans will proceed through the client's Tournament Draft feature. MSI officials will record pick/bans as the draft proceeds. In the case of a draft remake, teams must select the picks/bans in the same order up to the incorrect pick/ban that caused the draft remake.
- 7.5.3. Tournament Draft.** MSI officials may choose to employ either the Tournament Draft mode feature or a manual draft (e.g., draft that is conducted in chat without the use of an in-game feature). Players for each team cannot be substituted after the start of the draft. Players may play any Champion which their team has drafted.
- 7.5.4. Draft Mode.** All matches at the MSI will employ a snake draft format during the pick/ban phase. See Figure 3 in the Appendix for more details.
- 7.5.5. Selection Error.** In the event of an erroneously-selected Champion pick or ban, the team in error must notify a MSI official of their intended pick before the other team has locked in their next selection. If so, the process will be restarted and brought back to the point at which the error occurred so that the team in error may correct its mistake. If the next selection is locked before the team in error gives notice to a MSI official, the erroneous selection shall be deemed irrevocable.
- 7.5.6. Trading Champions.** Teams must complete all champion trades before the 20-second mark during the Trading Phase. At the discretion of MSI officials, late trades may be disallowed and players forced to play the champion they were holding prior to the disallowed trade (for example, in situations where penalties are not possible, such as the final game of a best-of series).

- 7.5.7. Game Start After Pick/Ban.** A game will start immediately after the pick/ban process is complete, unless otherwise stated by a MSI official. At this point, MSI officials will remove any printed materials from the Match Area, including any notes written by Team Members. Players are not allowed to quit a game during the time between the completion of picks/bans and game launch.
- 7.5.8. Controlled Game Start.** In the event of an error in game start or a decision by MSI officials to separate the pick/ban process from game start, an MSI official may start the game in a controlled manner and all players will select Champions in accordance with the previous valid completed pick/ban process.
- 7.5.9. Slow Client Load.** If a Bugsplat, disconnect, or any other failure occurs which interrupts the loading process and prevents a player from joining a game upon game start, the game must be immediately paused until all ten players are connected to the game.

7.6. Post-Game Process

- 7.6.1. Results.** MSI officials will confirm and record the official game result.
- 7.6.2. Tech Notes.** Players will identify any tech issues with MSI officials.
- 7.6.3. Break Time.** MSI officials will inform players of the remaining amount of time before the next game's pick/ban phase begins. The standard time for transition in between games is 13 minutes from nexus explosion until players are required in their seats. The exact time will be communicated to the coach and/or players by the referees. Pick/ban phase will commence as soon as all players are in their seats. If all the players are not in their seats, ready for Champion Select, at the time designated to them by the referees, the team may be penalized for delay of game.
- 7.6.4. Results of Forfeiture.** Matches won by forfeit will be reported by the minimum score it would take for one team to win the match (e.g. 1-0 for best-of-1 matches, 2-0 for best-of-three matches, 3-0 for best-of-five matches). No other statistics will be recorded for forfeited matches.

7.7. Post-Match Process

- 7.7.1. Results.** MSI officials will confirm and record the match results.

- 7.7.2. Post-Match Obligations.** Players will be informed of any post-match obligations, including, but not limited to, media appearances, post-game and backstage interviews, or further discussion of any match matters immediately following the conclusion of a match.
- 7.7.2.1. Backstage Interviews.** Players may be required to participate in a live, backstage interview for an official broadcast of the event. These interviews will only be conducted following the team's final game of the day.
- 7.7.2.2. Post-Game Interviews.** Players may be required to participate in a pre-recorded, post-game interview for a future official broadcast of the event. These interviews will only be conducted following the team's final game of the day.
- 7.7.2.3. Press/Media Interviews.** Teams will be required to make available to the media at least three players or coaches that started any game that day, regardless of team victory or defeat, for a minimum of eight total interviews.
- 7.7.2.3.1.** Four of these interviews must be from an outlet from each of the following regions: North America, EMEA, China, South Korea.
- 7.7.2.3.2.** One of these interviews must be in-person.
- 7.7.2.3.3.** Additionally, each team will be required to participate in one "scrum-style" interview during the Play-In and Bracket stages of play. Teams will be informed of these interviews a minimum of one day in advance, and they will take the place of a standard 1:1 interview for that day.
- 7.7.2.4. Press Conferences.** Following matches in the Knockout stage, teams will be required to send their full rosters, including their coach, to a press conference with assorted media outlets. These press conferences will last approximately 30-45 minutes.

8. Pauses and Bugs

8.1. Stoppage of Play

- 8.1.1. **Directed Pause.** MSI officials may order the pause of a match or execute a pause command on any player station at the sole discretion of the MSI officials, at any time.
- 8.1.2. **Authorized Player Pause.** Players may only pause a match immediately following any of the events described below, but must signal a MSI official immediately after the pause and identify the reason. Acceptable reasons include:
 - 8.1.2.1. An Unintentional Disconnection (i.e. a player losing connection to the game due to problems or issues with the game client, platform, network, or PC).
 - 8.1.2.2. A hardware or software malfunction (e.g. monitor power or peripheral disability or game glitch)
 - 8.1.2.3. Physical interference with a player (e.g., fan gank or broken chair)
- 8.1.3. **Unauthorized Pause.** If a player pauses or unpauses a game for an unauthorized reason, or without permission from a MSI official, it will be considered unfair play and penalties will be applied at the discretion of MSI officials. This includes pauses due to incorrect setups established as per the Player Ready State rule (Section 7.4.7).
- 8.1.4. **Intentional Disconnection.** Intentional Disconnections are not allowed. Players may experience an intentional disconnection when their actions (e.g. quitting the game) cause them to lose connection to the game. Any actions of a player which lead to a disconnection shall be deemed intentional, regardless of the actual intent of the player. In the case of an Intentional Disconnection, MSI officials are not required to enforce stoppages.
- 8.1.5. **Illness, Injury or Disability.** Minor Player illness, injury, or disability is not an acceptable reason for a Player pause. In the case of an underlying and/or pre-declared medical condition the Player may however inform a MSI Official prior to the Match, who may then grant a pause during the Match in order to evaluate the issue and to determine whether the Player is ready, willing, and able to continue playing within a reasonable period of

time, as determined by the League Official, but not to exceed a few minutes.

If a player is rendered unable to play or continue to play because of a lack of medical clearance, or if the team is unable to field a roster that is compliant with these Rules, the team shall forfeit the game unless a MSI official, in his/her discretion, determines that the game is subject to an Awarded Game Victory.

- 8.1.6. Player Communication During Stoppage of Play.** For the fairness of all competing teams, players are not allowed to communicate, in any fashion, with each other during a game pause. For the avoidance of doubt, players may communicate to the referee, but only when directed in order to identify and remedy the cause for the stoppage. If a pause extends long enough, referees may, at their sole discretion, allow teams to talk before the game is unpaused, in order to discuss the game conditions

8.2. Bug Definitions

- 8.2.1. Chronobreak.** The Deterministic Disaster Recovery Tool.
- 8.2.2. Bug.** An error, flaw, failure or fault that produces an incorrect or unexpected result, or causes a game or hardware device to behave in unintended ways.
- 8.2.3. Minor Bug.** A bug (including a hardware failure) that is, at worst, inconvenient to players. This may include bugs that alter game stats or gameplay mechanics in a manner that, while not optimal, can be played through if necessary. For the absence of doubt, in a case where Chronobreak is not available, these bugs would not result in a remake game.
- 8.2.4. Play Through Bug.** A bug that does not significantly alter the competitive integrity of the game. This may mean that there are mitigation steps available for an otherwise difficult to play around bug (like restarting the game client or computer). Alternatively, this may include situations where the impact of the bug can be mitigated through other in-game functions.
- 8.2.5.** This category also includes bugs provided under the “inform designation” - i.e. those bugs that are provided to teams in advance of games (usually champion, item or environment interactions and persistent effects) for which no remake will be offered. These effects or interactions cannot be

avoided or mitigated through any means other than disabling of the offending champions, skins or items and thus remakes are not available for these bugs, which must be played through.

At their discretion, MSI Officials may offer Chronobreak for Bugs under the “inform designation” if, in the sole discretion of MSI Officials, the Bug has a high impact on the competitive integrity of the Game. MSI Officials will not offer a Chronobreak if, in their sole discretion, they determine that the disadvantaged Player or Team intended to or purposefully triggered the Bug. In a Chronobreak situation, MSI Officials shall treat the Play Through Bug as a Minor Bug or Critical Bug, as appropriate, for the execution of the Chronobreak. If Chronobreak is unable to recover the Game or if any Player causes the Bug to reoccur, MSI Officials will force a play through with no option of a remake or additional Chronobreak.

- 8.2.6. Unintentional Hardware Failure.** The failure of any piece of hardware, including server failure, monitor or PC failure or player peripheral failure. This does not include any hardware failure that is player induced, including the intentional damage to, or destruction of, a player peripheral, damage to the monitor or a player interfering with a PC. The determination of whether a hardware failure is unintentional is up to the sole discretion of MSI officials.
- 8.2.7. Critical Bug.** A bug (including an Unintentional Hardware Failure) that significantly damages a player’s ability to compete in the game situation, significantly alters game stats or gameplay mechanics, or a situation in which the external environmental conditions become untenable. The determination of whether the bug has damaged a player’s ability to compete is up to the sole discretion of MSI officials.
- 8.2.8. Verifiable Bug.** A bug or critical bug that is conclusively present and not attributable to player error. The spectator must be able to replay the instance in question and verify the bug or critical bug.
- 8.2.9. Terminal Situation.** A bug or other circumstance that requires that a game be remade. These circumstances include (i) instances of critical bugs where Chronobreak is unavailable or unable to recover the game; (ii) bugs which cannot be remedied or avoided through the use of Chronobreak, including champion or skin bugs that may require that such champion or skin be disabled; or (iii) any other instance in the discretion of MSI officials

where the continuation of the game is untenable (including environmental concerns and catastrophic hardware failure).

- 8.2.10. “Dead-Ball” State.** A point in a game when neither team is heavily engaged with one another, although some minor engagement may still constitute a dead-ball state.

In establishing a dead-ball state, every effort should be made to identify a time as close to the bug instance as possible while providing an approximate 2 second window before a potential engagement in situations where the game was wound back from a point where the teams were engaged. The goal is to locate a point in time where an engagement remains possible, but not inevitable.

A perfect dead-ball state may not exist, and in those situations, the overarching goal of identifying a state in which there is no major engagement as close as possible to the bug instance should be prioritized (for example, going too far back could potentially remove setup a team has done, including wards, lane pressure and flanking).

- 8.2.11. Cost.** Any (i) player deaths; (ii) objectives (tower, inhibitor, dragon, herald or baron) taken that were not otherwise in progress at the dead-ball state (i.e. dragon was pulled or three players on the tower with a minion wave and no opposition); or (iii) ultimate, item or Summoner spell usage where such ultimate spell at Rank 1 (regardless of the ultimate rank or cooldown at the time of the bug) or base Summoner spell or item (i.e. without cooldown reductions from runes or items) has a cooldown of 110 seconds or longer. An ultimate or Summoner spell used, in the opinion of MSI officials, outside of normal play patterns for the purpose of triggering a cost under this rule shall not constitute a cost. Other factors such as vision (placed or destroyed wards), minions farmed, etc, while all carrying some value in the game, do not rise to the level of consideration in whether to use Chronobreak.

- 8.2.12. Prompt Reporting.** Once a player is aware of a bug (which, as defined, includes presumed hardware failures), the player is required to pause the game as soon as is practical through one of the methods listed below and alert MSI officials as to the bug. These methods are:

8.2.12.1. Pausing the game through the /pause command;

8.2.12.2. Asking a teammate to pause over audible voice communications;

8.2.12.3. Requesting that a referee pause the game.

For the avoidance of doubt, if a player audibly requests that a referee pause the game, even if the game is not immediately paused, the player will be considered to have requested a pause as soon as is practical. In addition, it may not be practical to cause an immediate pause upon recognizing the bug if, for example, the two teams are engaged with each other. In such cases, MSI officials may determine that it was not practical to pause the game until the engagement ended.

8.2.13. Game of Record. A game where all ten players have loaded and which has progressed to a point of meaningful interaction between opposing teams. Once a game attains Game of Record (“GOR”) status, the period ends in which incidental restarts may be permitted and a game will be considered as “official” from that point onward. Examples of conditions which establish GOR:

8.2.13.1. Establishing line-of-sight between players on opposing teams.

8.2.13.2. Any attack or ability is landed on minions, jungle creeps, structures, or enemy Champions.

8.2.13.3. Setting foot, establishing vision or targeting skillshot ability in opponent’s jungle by either team, which includes either leaving the river or entering brush connected to enemy jungle.

8.2.13.4. Game timer reaches two minutes (00:02:00).

8.3. Chronobreak Availability and Usage

8.3.1. Bug Determination. If a Game experiences a Bug at any point during the Match, MSI Officials must first determine whether the Player followed the pause protocol set forth above. If the Game was paused in a timely manner, MSI Officials must next determine whether the bug is a Verifiable Bug. If it is a Verifiable Bug, MSI Officials must next determine whether the Bug is a Minor Bug, Critical Bug or Terminal Situation.

8.3.2. Minor Bug.

8.3.2.1. If the Bug is a Minor Bug, MSI Officials must determine what the appropriate Dead-Ball State would be and whether there is a Cost associated with using Chronobreak to revert to that Dead-Ball State. If there is a cost associated with the Minor Bug,

Chronobreak is not available and Players should be instructed to play through the Bug.

8.3.2.2. In the case of a Minor Bug with no Cost, MSI Officials must determine (i) whether Chronobreak can restore the Game; and (ii) whether reverting the Game to an earlier state will fix the Bug or avoid the trigger condition for the Bug. If Chronobreak cannot restore the Game or reverting the Game to an earlier state will not fix or avoid the Bug, or in the case of any play through Bug, Chronobreak shall not be used and the Players will be instructed to play through the Bug.

8.3.2.3. If MSI Officials determine the use of Chronobreak is appropriate, MSI Officials shall determine whether either or both Teams were significantly disadvantaged by the Minor Bug, and any significantly disadvantaged Team will be offered the opportunity to Chronobreak the Game, although such Team will not be told what Dead-Ball State will be utilized. If both Teams are significantly disadvantaged, either Team requesting a Chronobreak will trigger the use of Chronobreak.

8.3.2.4. If any significantly disadvantaged Team requests a Chronobreak, MSI Officials will utilize Chronobreak to restore the Game to the appropriate Dead-Ball State. If an appropriate Dead-Ball State does not exist, Players may still be placed back to a recovered spot prior to the Bug occurring at the discretion of MSI Officials.

8.3.3. Critical Bug.

8.3.3.1. In the case of a Critical Bug, MSI Officials must determine (i) whether Chronobreak can restore the Game; and (ii) whether reverting the Game to an earlier state will fix the Bug or avoid the trigger condition for the Bug.

8.3.3.2. If Chronobreak cannot restore the Game, or reverting the Game to an earlier state will not fix or avoid the Bug, then the Bug constitutes a Terminal Situation.

8.3.3.3. In the case of a Critical Bug, MSI Officials will determine whether either or both Teams were significantly disadvantaged by the Critical Bug, and any significantly disadvantaged Team will be offered the opportunity to Chronobreak the Game, although such

Team will not be told what Dead-Ball State will be utilized. If any significantly disadvantaged Team requests a Chronobreak, MSI Officials will attempt to find an appropriate Dead-Ball State prior to the Bug occurring. If an appropriate Dead-Ball State does not exist, Players may still be placed back to a recovered spot prior to the Bug occurring at the discretion of MSI Officials. In the event that MSI Officials determine the cost of Chronobreaking would be higher than that of a remake, they may offer a remake to any disadvantaged Team.

8.3.4. Terminal Situation. In the case of a Terminal Situation, MSI Officials shall follow the remake procedures set forth below.

8.3.5. Remakes Before GOR. The following are examples of situations in which a Game may be remade if GOR has not been established:

8.3.5.1. If a Player notices that Player's rune, Summoner Spells, or GUI settings have not applied correctly due to a Bug between the Game lobby and Match, the Player can pause the Game to adjust these settings. If the settings cannot be correctly adjusted, then the Game may be restarted.

8.3.5.2. If MSI Officials determine that technical difficulties will not allow for the Game to resume as normal (including a Team's ability to be in proper position for certain Game events, such as minion spawn).

8.3.5.3. Any circumstance which would permit a remake after GOR.

8.3.6. Remakes After GOR.

8.3.6.1. The following are examples of situations in which a Game may be remade after GOR has been established.

8.3.6.1.1. If a Game experiences a Terminal Situation at any point during the Match.

8.3.6.1.2. If a MSI Official determines that there are environmental conditions which are unfair (e.g. excessive noise, hostile weather, unacceptable safety risks).

8.3.7. Remake Procedure.

8.3.7.1. Awarded Game Victory. In the event of a Terminal Situation in which MSI Officials intend to declare a remake, MSI Officials must

first consider whether a Game victory should be awarded to a Team.

MSI Officials, in their sole discretion, may determine that a Team cannot avoid defeat (i.e. cannot come back and win the Game) to a degree of reasonable certainty. MSI Officials may, but are not required to, use any or all of the following criteria in the determination that one Team cannot avoid defeat to a degree of reasonable certainty.

- 8.3.7.1.1. Gold Differential.** Of the total gold earned in the game, one Team has earned 57.5% or more of that gold. For example, if 10,000 gold has been earned in the game, the leading Team has earned at least 5,750 gold as a team.
 - 8.3.7.1.2. Remaining Turret Differential.** The difference in the number of remaining turrets between the Teams is eight (8) or higher.
 - 8.3.7.1.3. Remaining Inhibitor Differential.** The difference in the number of standing inhibitors between the Teams is three (3).
 - 8.3.7.1.4. Remaining Nexus Turret Differential.** The difference in the number of remaining nexus turrets between the Teams is two (2).
 - 8.3.7.1.5. Respawning Player Differential.** The difference in live Player characters between the Teams is at least four (4), with the remaining death timers on all dead Players being at least forty (40) seconds or higher.
 - 8.3.7.1.6. Straight Up GG.** At the time of technical difficulty, there is no scenario that in the opinion of MSI Officials, could result in anything other than the victory of one Team (e.g. at 45 minutes one Team is aced and the Mid and Jungler on the opposing Team have a minion wave and are running into the opposing base).
- 8.3.8. Offering a Remake.** If MSI Officials do not award the Game victory, MSI Officials will determine whether either or both Teams were significantly disadvantaged by the Bug, and any significantly disadvantaged Team will be offered the opportunity to remake the Game. If any significantly

disadvantaged Team accepts a remake, the Game will immediately be remade as per this section. Significant disadvantage is a prerequisite to a remake offer.

In certain Terminal Situations, for example, where the server has crashed and the Game cannot be continued or recovered through Chronobreak, MSI Officials may direct a remake without offering Teams the opportunity to remake the Game.

- 8.3.9. Controlled Environment.** Certain conditions may be preserved in the event of a remade Game that has not reached GOR, including, without limitation, picks/bans, runes, skins, or Summoner spells. If, however, a Match has reached GOR, MSI Officials shall not retain any settings.
- 8.3.10. Champion and Skin Disables.** If the remake occurred due to a champion Bug, then settings no longer will be retained (including picks and bans) regardless of Game of Record status and the champion may be made ineligible for at least the remainder of the day's Matches unless the Bug can be conclusively tied to a specific Game element that can be fully removed (i.e. a skin that can be disabled).
- 8.3.11. Hardware Malfunction.** In the case of any hardware malfunctions, MSI Officials shall determine whether the hardware malfunction constitutes a minor bug (i.e. a monitor loses power and a Player walks into a wall or takes an odd path), a critical bug (i.e. a keyboard stops working, causing a Player death) or a terminal situation (i.e. the LoL server crashes) and follow the appropriate standard above.
- 8.3.12. League Discretion.** MSI Officials may utilize Chronobreak at any time or remake any Game if MSI Officials, in their sole and absolute discretion, believe that such an action is necessary to preserve the best interests of the League. This power is not constrained in any way by the lack of any specific language in these Rules.

9. Team Personnel Conduct

9.1. Intention Irrelevant.

Unless expressly stated otherwise, offenses and infringements of these Rules are punishable, whether or not they were committed intentionally. Attempts to commit such offenses or infringements are also punishable.

9.2. Competition Conduct

The following actions will be considered unfair play and will be subject to penalties at the discretion of League Officials.

- 9.2.1. Collusion.** Collusion is defined as cooperation or conspiracy to cheat or deceive others. The cooperation or conspiracy can occur among Players, Teams, and/or organizations. The list of conspirators is not exhaustive. Collusion includes, but is not limited to, acts such as:

9.2.7. Spectator Monitors. Players on a Starting Roster for a Game are not permitted to look or attempt to look at any screen or device that is displaying an observer level view of that Game (i.e. that is or is capable of showing a neutral view of the map). They must also immediately report these screens or devices if seen.

Note: For example, a Player who is playing cannot look or attempt to look at the overhead screen in the event venue because those screens show or may show the movements, position, gold or other information relating to their opponents that are not otherwise during a Game. There is no prohibition with leaning over and looking at a teammates monitor as long as no other rule is broken (for example, removing a headset).

9.2.8. Spectator Machines. No Team Personnel or any Team staff member may utilize the backstage coach spectator machines to interfere with any Game or to communicate with anyone involved in any Game. Interference with any Game, including pausing the Game or messaging participants in the Game, from any backstage coach spectator machine, will result in forfeit for the offending Team, without regard to intent.

9.2.9. Ringing. Playing under another Player's account or soliciting, inducing, encouraging or directing someone else to play under another Player's account.

9.2.10. Cheating Methods. The use of any kind of cheating device and/or cheat program, or any similar cheating method such as signaling devices, hand signals, etc.

- 9.3.3. Behavior in LoL.** All Team Personnel are subject to behavior checks and reviews for their behavior while playing LoL, including before being permitted to associate with a Team as a Coach, manager, or player. Team Personnel are expected to behave appropriately in-game and to avoid the use of derogatory, racist and offensive language as well as griefing and intentionally feeding.
- 9.3.4. Harassment.** Harassment is forbidden. Harassment is defined as systematic, hostile and repeated acts taking place over a considerable period of time, or a singular egregious instance, which is/are intended to isolate or ostracize a person and/or affect the dignity of the person.
- 9.3.5. Sexual Harassment.** Sexual harassment is forbidden. Sexual harassment is defined as unwelcome sexual advances. The assessment is based on whether a reasonable person would regard the conduct as undesirable or offensive. - 9.3.6. No Interference With Referees.** During a game pause or other stoppage of play (including a game server crash), no Team Personnel may be in the backstage area in proximity to the Head Referee. Team Personnel may interface through a designated Referee or League Official who will relay team input to the Head Referee and relay necessary information from the Head Referee to the Team.
- 9.4.3. Unauthorized Communications.** All mobile phones, tablets and other voice-enabled and/or “ringing” electronic devices must be removed from the play area before the Game. - 9.4.9. Bribery.** No Team Personnel may offer any gift or reward to a Player, coach, manager, League Official, Riot Games employee, or person

connected with or employed by another Team for services promised, rendered, or to be rendered in defeating or attempting to defeat a competing Team.

- 9.4.10. Gifts.** No Team Personnel may accept any gift, reward or compensation for services promised, rendered, or to be rendered in connection with competitive play of LoL, including services related to defeating or attempting to defeat a competing Team or services designed to throw or fix a Match or Game. 9.5.4.7. Suspension(s)

9.5.4.8. Disqualification(s)

Repeated infractions are subject to escalating penalties, up to, and including, disqualification from future participation in competitive League of Legends play. It should be noted that penalties may not always be imposed in a successive manner. The MSI, in its sole discretion, for example, can disqualify a Player for a first offense if the action of said Player is deemed egregious enough to be worthy of disqualification by the MSI.

Penalties that state a listed amount of time for discipline will only apply to competition months. Competition months are defined as the months in which League of Legends professional competition are taking place (i.e. January through October).

These Rules may be amended, modified or supplemented by the League, from time to time, in order to ensure fair play and the integrity of the League.

10.3. Language Differences

10.4. Best Interests of the MSI

MSI Officials at all times may act with the necessary authority to preserve the best interests of the MSI. This power is not constrained by the lack of any specific language in this document.
